9202. Fw: [CQ-Contest] The battle of the callsigns

From: Vladimir A. Gordienko

Hello Contesters,
?? ?????? ??????, ??? ??? ?й ?????? (?? ?????????),
?? ??? ??????? ??? ?? ????? ??????.
Jose ?????? ????? ?????????? ???????????
?? ?????? ???????? ? ?.?.

It is known that the outcome of a contest performance is determined by three main factors:

1.. Geographical location
2.. Operating skill
3.. Station performance

What perhaps it not so well know, there is a callsign battle going on, and this factor is also of great importance to the final outcome of the contest.

With the help of an audio spectrum analyzer, I determined the length of some well know calls, at 35 and 40 WPMs.

Also I collected data from P40E CQWW CW 2003 operation. In this operation, according to my logging software, I pushed F1 button (TEST P40E) 5605 times. Although the program did not record how many times I pushed F4 (P40E) button, taking into account the 8183 QSO's, let's assume, the overall number (F1+F4) is around 10.000 times, which if anything, it is a conservative number.

With all this information, let's check how long different calls take, and it's impact in the final score:

@40 WPM

P40E = 1,593 second * 10.000/60/60= 4,43 hours

D4B=1,031 seconds *10.000/60/60= 2,86 hours

ZD8Z=1,655 seconds*10.000/60/60= 4,60 hours

So the battle of the callsigns is won by D4B.

D4B callsign will give the operator a 1,56 hour advantage over P40E (3,25% of the contest time) and a 1,73 hour advantage over ZD8Z in the contest

P40E is the shortest callsign available to foreigners in Aruba, so there is nothing more to be done regarding this subject.

ZD8Z would gain a bit had he chosen ZD8E instead of ZD8Z.

Let's now check some calls in the USA. Let's continue to assume the USA stations broadcast their calls 10.000 times, but now at 35 WPM

KQ2M 1,867 *10.000/60/60=5,19 hours

K5ZD 1,584 *10.000/60/60=4,40 hours

N9RV 1,660 *10.000/60/60=4,61hours

K1AR 1,659 *10.000/60/60=4,61hours

Now what if all these USA stations instead of using their callsigns would rather use, one of the shortest USA calls: AE5E

AE5E 0,883*10.000/60/60=2,45 hours

What would be the gain in hours be and the respective % in the total contest time (48 hours):

KQ2M 2,73 hours 5,7%

K5ZD 1,95 hours 4,1%

N9RV 2,16 hours 4,5%

K1AR 2,16 hours 4,5%

It is quite impressive. Just by choosing a shorter call, KQ2M would have almost 6% more of available time. That's a lot of time and points to the final score.

And what about those famous MM callsign that relentlessly broadcast their calls over the air. Well because they operate MM the total operating time is not 48 hours but the sum of the operating time on all the six bands. I have no data regarding how many times they broadcast their callsigns, but lets guess it is 30.000 times.

W3LPL 2,223 seconds*30.000/60/60=18,53 hours

K3LR 1,659 seconds*30.000/60/60=13,83 hours

KC1XX 2,503 seconds*30.000/60/60=20,86 hours

K9NS 1,587 seconds*30.000/60/60=13,23 hours

Would they rather use AE5E call this would be their gain in hours:

W3LPL 11,17 hours

K3LR 6,47 hours

KC1XX 13,50 hours

K9NS 5,87 hours

It is funny how both KC1XX and W3LPL calls are lousy contest calls (judged only by the time it takes to transmit it). Of course they are well know, and there are advantages, but they would be better off switching definitely to a shorter call, like AE3E or AE1E or AE9E

Anyway, the point is, if your objective is records, winning, etc, the quickest way to boost your score is choosing the shortest contest call available.

У меня тоже давно есть мечта - проводить Чемпионаты Украины "100 ватами". Положительных последствий - немеряно. В том числе, и приближение к главной цели: росту количества участников и большей справедливости при выявлении Чемпиона. Отрицательное следствие, возможно, одно - мошеничество ОТДЕЛЬНЫХ участников. Ну, так есть много разных способов борьбы. Главное - гласность. Кого поймали, называть. Когда-то существовал институт комиссаров. Кроме того,припоминаю, мне даже пришлось по просьбе руководства UCC несколько лет назад спонсировать мониторинг Чемпионата специально выделенными для выявления нарушителей радиостанциями. Можно еще что-нибудь придумать в этом духе. Но главное, совесть - лучший контролер + гласность. Нужно большое внимание общественности к теме "читинга" (мошеничества, жульничества, надувательства). ЛРУ и УКК не должны быть пассивными. (ЛРУ вообще неплохо бы быть! Восстать к жизни). Информация в современном мире перестала быть дефицитом. Все тайное становится явным рано или поздно. Первая 20-ка претендентов должна присылать "Клятву о 100 ватах". Никто неизвестный не может стать Чемпионом в заочном тесте в один шаг. Должен засветиться, представить обществу некие свидетельства своего честного потенциала. Вообще, понятно, что простым (одним) движением эта проблема не решается. Но двигаться надо. Мои 5 копеек.

Мне кажется, возникает небольшая путаница. Игорь выступил с критикой
любителей ЗАЯВИТЬСЯ ЛОУ ПАУЕР, работая с усилителем. Игорь, конечно,
работает с усилителем тоже, но его отличие от первых в том, что он
заявляется так, как работает.
Относительно UR3HC, я склонен ему верить, потому что он сам публично
выступил в свою защиту.
Борис, соответствует ли используемая реально мощность указанной в
разрешении, уже, на мой взгляд, несколько иной поворот в этой теме.
Многи контестмены (я знаю UT1IA, UX1UA) имеют разрешение на 1 квт и его
же и используют. Но и ЗАЯВЛЯЮТСЯ в хай пауер.

Hands down, the persistently most outstanding signal here during contest was that of UU7J. He was nearly always many db louder than any other signals, and I never head another one stronger at any time. His signal was so very outstanding that I was led to wonder if he might be using a lot more power than anyone else.

Как мне кажется, тех, кто решает "это для себя индивидуально" уже не так и много. Большинство признает реалии, привнесенные в жизнь в последние десятилетия неумолимым прогрессом. Нравится или не нравится, но так есть. На определенной стадии развития возникает специализация - конструктор, обеспеченный человек, оператор... Это не всегда одно и то же лицо :-)

Понятно, что контестинг, как любой другой технический спорт основан на вкладе многих. Почему антенны, а не трансиверы считается правильным строить самому? Да и сами ли мы (в одиночку)строим их сегодня? Возможно, Николай Михайлович и обходится совсем без помощи друзей в создании сложного антенного хозяйства. А если нет? Тогда придется признать и их вклад в свои спортивные достижения.

На мой взгляд, весь мир давно уже перешагнул трактовку коротковолнового контестинга, как вида самодеятельного творчества. Во всем мире созданы и, слава богу, еще создаются Супер-станции, за призы воюют, в основном, Биг-ганы... И эта тенденция становится основным путем развития. Контестинг скорее можно сравнить с Формулой-1. Техники, хоть отбавляй, гонка - на лицо, да и зрелищность не очень высокая - тоже общая черта. Но в мире гонщиков никому не приходит в голову пенять Шумахеру за неучастие в создании болида.

Так что, пользуйтесь уникальным сетапом для достижения уникальных результатов! Они для того и создаются. Только заявляйтесь в правильной категории - это главное. CQ WW - The Contest!

Здравствуйте, URcontest.

Что-то мой The Bat не хочет отправлять письма более чем на 5 адресов
одновременно. Выскакивает табличка с надписью "Серевер сообщает об
ошибке: Message rejected -- to many recipients given"
Может кто-то подскажет как эту бяку победить?

TNX!

k2ut has his own node, why go to ve9emo-9 as a user?
Many of the users checked only had connected once to ve9emo-9, unfortunately
ip address information is not directly available... anyone know him or how
to extract ip addresses from dxnet software?
Other than that it sure is odd that lots of stateside users were connected
to a ve9 node and only made one spot in the whole contest from there.

А я воспользовался специальным макросом в Миксе (игнорировать повторы до
XX.XX часов, минут) - в 0 часов кликнул на него один раз и продолжил
работу в том же логе. Без ухищрений.
Хотя по большому счету, самодеятельности в этом тесте хватает.

Hello Vladimir, Если есть QRP зачет - 10% от максимального QRP результата. Для SO160 - 10% от макс.

Насчёт коллективных станций ещё можно как-то согласиться.
А индивидуалам это не надо разрешать. Лишний раз спровацировать химию!?
Я бы пока оставил всё без изменеиний!
Если будет интересно в следующем году можно будет добавить ещё одну
подгруппу MM или Multi Two.

Не хотел постить результат. Но раз уж до конца продержался...
Хотелось бросить из-за проблем со срывом манипуляции, главным образом.
Ну, и Inv Vee на 80м всегда плоховато работавший, совсем отказывал.
Иногда бедная Альфа-автомат и без того дававшая ватт 300-400 вместо 1К
(имеется разрешение), доходила до менее 100 ватт :-(. Начало 2-го тура
вместо ударного темпа просидел в намотке проводов и кабелей на кольца.
Плохо не готовиться к тесту.

Subject: Письмо в рефлектор, которое не проходит туда!

Господа!
Пишу Вам свои мысли по поводу организации и основ судейства, которые по непонятным для меня причинам не доходят в Рефлектор по милости Модератора! Официально заявляю, что нарушений Правил Рефлектора себе не позволял, а отключен только по идейно-политическим соображениям Уважаемого Модератора! Как жаль, что у него недемократические соображения....
Далее моё пимьмо...

Господа!
Никого не зашищаю и никого не хочу обидеть! Хочу сказать по существу судейства, а не факта, что кто-то кого-то слышал! Подход к судейству никакой! Нет самой концепции правильного судейства, которая порождает данные споры! Свидетельские показания могут быть предвзяты (и их на моё мнение реальных нет), а судьи должны полагаться только на документированные факты! Да и "химия Поиска", практически не может быть поймана и доказана без мониторинговой группы судей (не участвующих в соревнованиях и ждущих от них результата)! Есть в Днепропетровке аппаратура многоканальной (от 8-ми и более) цифровой записи , где конкретно указывается (до секунды) время любого фрагмента и дата.Она может быть применена (после её приобретения) для решения данных спорных вопросов и прозрачного корректного судейства. Не такие большие деньги она стоит! Подключайте к приёмникам и пишите все соревнование (до 1200 часов непрерывной записи по 8-ми каналам). При поступлении протеста в судейскую коллегию на нарушение Положения или при вынесении вердикта о Дисквалификации данной станции, должно быть указанно время, диапазон и дата нарушения, подкреплённое привязкой к записи мониторинговой группы.Или станция подающая протест сама обязана записать(только с привлечением местного ГИЭ) нарушение и выслсть запись судьям. Иметь разныие силы сигнала и тональность - не доказательсво для решения о Дисквалификации. На одном рабочем месте любой может мспользывать много техники в резерве! Далее... Мониторинговая группа, помимо записи может деллигировать своих коммисаров непосредственно на места (станции претендующие на призовые места) для просмотра соблюдения Положения.Комисар не имет право мешать ходу соревнования, но имеет решающий голос при Дисквалификации, написав акт о Нарушении сразу после окончания зачётного времени, оставив копию акта на инспектируемой станции. Вот так я вижу Судейство! Слова "Все слышали и все видели" - не есть законно доказанный факт! А Судья должен чётко опираться на букву Закона! ДРУГИЕ ПОДХОДЫ К СУДЕЙСТВУ ВОСПРИНИМАЮ, КАК ВОЗВРАТ К КУЛЬТУ ЛИЧНОСТИ И ОТХОДУ ОТ ДЕМОКРАТИЧЕСКИХ ПРИНИПОВ, НАДОЛГО ОТБРАСЫВАЮЩИХ НАС ОТ ЦИВИЛИЗОВАННОГО МИРОВОГО СООБЩЕСВА! Предлагаю считать поднятые вопросы по отношению к UGR-у

"Недоказанными фактами" и сосредоточить своё внимание к улучшению качества судейства! Это только Прецидент, который надо решиать в ближайшее время, а "непойманое нарушение" должно остаться на совести Нарушителя или Клеветников (так можно назвать в букве Закона недоказанное нарушение онного)!

Yahoo group: URcontest (2005)

From: Vladimir A. Gordienko
Topic: 9776 Message: 9776

Hello!

This is to announce that the new Eu Sprint webpage is
now on-line.

The address is: <http://www.eusprint.com>.

The new website has been the work of two (young) English
coders over the last few months, Royce, M0RHI, who wrote
the code, and Pete, M3PHP, who designed the graphics.

For you, it is laid out more friendly and dynamically, allowing
us to bring you new statistics and make the UBNs and results
easier to navigate.

This website will be the official EU Sprint site, and will be updated
with all the contest results as and when they are released.

We hope you enjoy the new look, feel free to let us know what
you think via the contact form!

Red circle on your calendar the two coming Sprint events:
- April 9 = SSB
- April 16 = CW

About Eu Sprint:
- download the FREE software,
- rules in English, Italian, French, Spanish, Portugese, Russian, Czech,
German, Polish, Greek, Croatian,
- all past results from 1994,
- download full logs and ubn reports,
- all time records,
- find more information about Log Checking,
- and much more about the Eu Sprint....
You will find everything here: <http://www.eusprint.com>.

Лучше бы ты, Володя, писал, что это ты так думаешь, и не пугал народ.
Верхушка УЦЦ это не истина в последней инстанции.
По тому, сколько народа пишет за ту или иную сторону, вижу, что вы, скорее, в меньшенстве.
И уж точно не позволено вам диктовать всем контестменам свою политику.
Двойные стандарты, с которыми вы все это делаете, уже давно всем известны.
А наезды на коллективы из-за того, думаю, что все вы единоличники по сути, а посмотрели бы на некоторые вещи из других окопов, глядишь, взгляды-то и поменялись бы, возможно. Только не нужно вспоминать историю, давно это было, и вы все, к сожалению, забыли. А теперь недоумеваете, как это люди с коллективок делают в несколько раз больше результат.
Возраст здесь не причем, если вам уже не интересно работать серьезно, не мешайте, хотя бы другим.

Вот DL6RAI приедет на конференцию УЦЦ вручать нам и ut9f плакетки за WAE, и кому он их будет вручать? А вы тут устроили показательные процессы...

Заканчивайте уже, так ты обычно пишишь как модератор.

Для меня тема закрыта.

да, неувязочка получается.
Нету там пункта, что нельзя работать оператору радиостанции укороченным или специальным позывным этой радиостанции в индивидуальном зачёте.

Это как в огороде бузина в Киеве дядька.
Начали с нарушений на UU4JXM, а виноватым во всем
опять оказался почему-то Володя UY5ZZ (который в дискуссии
не участвует) и еще клуб UCC (от имени которого тоже никто не
писал).
Я от себя лично, как человек с опытом, вам еще раз рекомендую
почитать Регламент, про переносы и т.д. это вам еще пригодиться.

Повторюсь, я не собираюсь становится президентом УЦЦ , и для того, чтобы никто на эту тему не спекулировал, заранее беру самоотвод!

По поводу WAE 2002, сам не работал, но всю поднаготную знаю. Если хочешь, ребята сами все объяснят в рефлекторе.

Полностью поддерживаю последнее письмо UR7QM, лишний раз убедился в его непредвзятости.

Всем успехов в Чемпионате!

Владик, сколько не кричи халва, во рту слаще не станет.
Не надо выдавать желаемое за действительное.
Народ у нас умный и сам разберется.
Вся подноготная твоих со товарищи наездов на UCC мне лично
понятна, поэтому не занимайся дешевым пиаром.

2005 YU DX Contest
April 16/17, 2005

for new rules, free software, etc.
please visit http://yudx.net

Dear Fellow Contesters,

it's another YU DX Contest season!

Last year's results have been published,
awards sent out, and we have new rules.

The contest starts 9 hours later. Operating time has been shortened
and split into two 8-hour periods (both are "9 till 5"), with a 4-hour
rest period in between. We hope this fits your schedule much better.
And there is almost no overlap with other events on this busy weekend.

Categories and Awards are entirely new. We tried to encompass
all the variety of modern ham's inclinations, while avoiding
"award inflation", all too common nowdays. Please, have a look!

This April's contest runs CW only. Possibilities for
scheduling an SSB part later this year are being evaluated.

Enjoy this year's YU DX Contest.

73 & GL,

Sinisa YT1NT, VA3TTN

???????????, URDX.

Hi
Received from the Irish Radio Transmitters Society through Jean-Yves, F8LDX's mail-box.

International Marconi Day (23rd April 2005)

International Marconi Day (IMD) is a 24-hour amateur radio event held annually to celebrate the birth of Guglielmo Marconi on the 25th of April 1874. The IMD event is not a contest, it is an opportunity for amateurs around the world to make point-to-point contact with historic Marconi sites using HF communications techniques similar to those used by Marconi, and to gain an attractive Award for achieving the requisite number of Marconi stations worked. (5 awards for transmitters, 2 for SWL) International Marconi Day is usually held on the Saturday closest to Marconi's birthday, when amateur radio stations are established and operated from or near original historic sites.

This year, the event will take place on the 23rd of April.

These stations are known as the 'Award Stations' and are listed on the IMD Web Site at http://www.gb4imd.co.uk/awardstns.htm.

The list is regularly updated as the various stations confirm their availability to operate.

For more information visit gb4imd.co.uk.

Здравствуйте, Андрей
Так и не дождались от Вас предварительных итогов
по ЧУ 2005 ТЛГ.Владимир UY5ZZ прислал их очень оперативно,
за что ему большое спасибо.

По результатам все понятно,-кроме одного:

CALL Pop Cat QSO Pts Q+O Pts Cfm Q+O Cfm Err %%
UR6IGG 118 Check 207 412+510 922 338+510 848 10 91
UR7TWZ 24 Check 42 84+350 434 46+210 256 10 58
UR4XXH 15 Check 33 64+290 354 28+130 158 8 44
UR8QR 13 Check 18 36+140 176 24+90 114 0 64
UR4MTJ 22 Check 19 38+100 138 2+10 12 22 8
UT5JDS 1 Check 13 26+90 116 0+0 0 8 0

Наш коллектив считает,что будет справедливо и честно перед
всеми участниками данных соревнований снять с зачета все
радиосвязи не только UT5JDS но и UR7TWZ ,UR4XXH.

Заявляем,что сигналы данных радиостанций ни разу за время
соревнования ни принимались нашими операторами.

Можно только догадываться с чьей подачи и для чего они появились в
отчетах некоторых участников данных соревнований.

Считайте данное письмо протестом по Чемпионату Украины 2005 - ТЛГ.

А почему просто на домене uarl.org.ua завести ящики и принимать отчеты
только с них.
Понимаю, что нагрузка на провайдера - но условиие, что используется только
для отчетов.
Удачи.

Subject: Re[2]: [URcontest] ЧУ 2005 ТЛГ

Hello Всем,

Провел экспресс анализ отчетов ЧУ CW 2005.

UT5JDS: из 13 QSO только четыре были найдены в других отчетах, все
четыре связи с UU9JWM, но вот незадача - во всех четырех принятый
номер сбит на единицу.

UR4XXH: какая-то фигня, половины задекларированных связей в других
логах нет. Можно обнаружить предпочтение для UU4JXM и нелюбовь к
UT5UGR, все связи с которым - с ошибкой.

UR7TWZ: в эфире позывной звучал, к-во подтверждений - в пределах
нормы, если бы не заявление о том, что это - хулиганство, то можно
было бы и не заметить. Что интересно, так это то, что во всех четырех
связях с UT5UGR сбиты на единицу, (аналогия с UT5JDS)

Складывается впечатление, что все три отчета - работа рук одного
"мастера". Анализ IP не проводился, так как главный судья заголовки писем
не предоставил.

В связи с тем, что связи, которые потенциально могли бы принести много
очков конкретным станциям оказались битыми, возникает вопрос - что бы
это значило? В голову пришло следующее:
- Провокация. "Смотрите как нас подставляют, и вообще в Лиге бардак".
- Ход конкурентов.
- Кто-то просто подобной шуткой решил проверить качество судейства.

В любом случае эти три отчета следует исключить из рассмотрения и удалить из каталога. Для дальнейших чемпионатов предлагаю сделать следующую поправку к Положению: отчеты, имеющие менее 20% подтвержденных связей от максимального результата в соответствующей категории и/или имеющие менее 75% подтверждаемости, и отчеты, посланные с анонимных серверов, к зачету не принимаются.
Последний пункт (использование анонимных серверов) является актуальным и для остальных соревнований, проводимых Лигой.

Возможно, что конкретного виновника удастся вычислить, но шансы тают со временем, и вполне возможно, что искать уже поздно. (Судьям: В дальнейшем не затягивайте с заголовками, если нужно что-либо искать).

С отчетом UT5UGR - отдельная история, и она никак не связана с вышеизложенным.

Сначала был проведен анализ темпа работы UT5UGR по его заявленному отчету. Результат в графическом виде можно посмотреть на:
http://www.qsl.kiev.ua/misc/ut5ugr-2005.gif
Бросается в глаза очень сильная корелляция всплесков темпа работы с переключением диапазонов. Для сравнения - анализ лога UT7QF:
http://www.qsl.kiev.ua/misc/ut7qf-2005.gif

По получении всех отчетов представилась возможность проанализировать более детально метод работы коллектива UT5UGR.

Типичная картина:
Band разница с логом корреспондента
3500 0
3500 0
3500 -1
3500 -1
3500 -1
3500 -2
1850 +1
1850 +1
1850 +1
1850 +1
1850 0
1850 0
1850 0

Иногда при переходах разница времени достигала трех минут!

Главный судья сию информацию прокомментировал "это и без анализа было видно",
но поблагодарил за проведенный анализ, сказал что он будет использован при вынесении вердикта.

Из новой книги "Химия для чайников":

Работа с двух мест в зачете SO.

Станции А начинает работу на одном диапазоне.
Станция В набивает себе BANDMAP на другом диапазоне.
После десяти минут работы проведено, скажем, 15 QSO. Параллельно, на
втором диапазоне начинает работать станция В, начиная давать
номера начиная с 20, в это же время станция А продолжает работу,
за две-три минуты проводит еще 4 QSO, заполняя пробел между 15 и 20,
и переходит к набиванию BANDMAP. Через десять минут процедура повторяется.

Двадцать переходов, минимум по три связи на каждом = не менее 60
дополнительных QSO в контесте. Примерно такая разница и наблюдается
между результатом UT5UGR с основной массой лидеров. Димино заявление по
поводу "не с кем соревноваться в виду отсутствия US1ITU" побудило
проверить работу US1ITU в прошлых чемпионатах. Результат проверки:
химия подобного рода US1ITU не применялась.

Hello!

This email is to invite all contesters to have a go in
the ARI International DX Contest 2005 that will take
place on May 7/8.

It's a world wide type competition and the allowed
operating modes will be SSB, CW and RTTY.
ARI DX Contest is fully supported by WriteLog for
Windows, SuperDuper by EI5DI, TRLog by N6TR, N1MM
Contest Logger, RTTY by WF1B, RCKLog by DL4RCK,
OH2GI Ham System, GenLog32 by W3KM, UA1AAF and
many other softwares. Take a visit to ARI DX
webpages for download a FREE program at the following URL:
<www.qsl.net/contest_ari> or <www.ari.it>.

NOTE: If you will use UA1AAF software please upgrade with
the new 2005 release.

NOTE: The new E-mail address to submit your log
is: <aricontest@...> .

We hope you will give the ARI DX a try in the first
full weekend of May, and then send your logs to
<aricontest@...>. We are able to convert any
kind of files format, but Cabrillo or others ASCII
files are preferred and welcome. The full ARI DX
rules are shown below.

73 from IK2HKT
A.R.I. HF Contest Manager

A.R.I. International DX Contest 2005
Rules for DX entrants (outside of I & IS0)

The Associazione Radioamatori Italiani (A.R.I.) has
the honour of inviting radio amateurs all over the
world to participate in the 2005 A.R.I. International
DX Contest.

AIM. Its a world-wide competition: everybody can work
everybody.

DATE and TIME. The contest will be held on each first
full week-end of May from 2000z Saturday till 1959z
Sunday. In 2005 it will be on May 7/8.

CATEGORIES:
1. Single Operator - CW
2. Single Operator - SSB
3. Single Operator - RTTY
4. Single Operator - Mixed
5. Multi Operator - Single TX - Mixed
6. SWL - Single Operator - Mixed

BANDS. 10m thru 160m (RTTY: 10m thru 80m), except WARC bands, are allowed according to IARU Band Plans. Band AND MODE can be changed only after 10 minutes you have been on it (Multi Operators only).

EXCHANGE. Italian stations will send RST and two letters to identify their province. Other stations will send RST and a serial number from 001. The serial number will NOT restart from 001 on each band/mode.

MULTIPLIERS:
1. each Italian province (103) count 1 (one) multiplier,
2. each DXCC country (except I & IS0) count 1 (one) multiplier.
The same multiplier (country/province) can be counted once and only once for band.
The 103 Italian provinces (by call-area) are:
I1: AL, AT, BI, CN, GE, IM, NO, SP, SV, TO, VB, VC.
IX1: AO.
I2: BG, BS, CO, CR, LC, LO, MI, MN, PV, SO, VA.
I3: BL, PD, RO, TV, VE, VR, VI.
IN3: BZ, TN.
IV3: GO, PN, TS, UD.
I4: BO, FE, FO (or FC), MO, PR, PC, RA, RE, RN.
I5: AR, FI, GR, LI, LU, MS, PI, PO, PT, SI.
I6: AN, AP, AQ, CH, MC, PS (or PU), PE, TE.
I7: BA, BR, FG, LE, MT, TA.
I8: AV, BN, CB, CE, CZ, CS, IS, KR, NA, PZ, RC, SA, VV.
I0: FR, LT, PG, RI, ROMA (or RM), TR, VT.
IT9: CL, CT, EN, ME, PA, RG, SR, TP, AG.
IS0: CA, NU, SS, OR.

QSO/POINTS:
1. QSO/HRD with own country counts 0 (zero) point but is good for the multipliers credit.
2. QSO/HRD with own continent counts 1 (one) point,
3. QSO/HRD with different continent counts 3 (three) points,
4. QSO/HRD with any Italian (I & IS0) station counts 10 (ten) points.
The same station can be contacted on the same band once on SSB/CW/RTTY but only the first QSO is good for multipliers credit. PLEASE REMEMBER that I (Italy) and IS0 (Sardinia Island) are NOT country-multipliers.

FINAL SCORE. The sum of QSO/points from all bands times the sum of multipliers from all bands.

SWL. Listeners are required to log the callsigns of both the station heard and the correspondent station. Score is calculated based only upon the station heard using the same rules as transmitting stations. A callsign may not appear more than 3 (three) times as a correspondent regardless of mode. SWLs MUST log no more than 1 (one) QSO on each line of their log.

LOGS and SUMMARY SHEET. Separate logs are necessary for each band. Logs must show all the QSOs data. A summary sheet is required showing all the scoring details, class of entry, name, callsign, full address of the applicant, callsign of other operators and a signed declaration. Logs must be mailed within 30 days from the end of the contest and addressed to: ARI DX Contest, c/o ARI, Via Scarlatti 31, 20124 Milano, Italy.
Logs on diskette are really very welcome and accepted in substitution of paperlogs. Please send us your log on diskette. Accepted formats are: N6TR, K1EA, EI5DI, UA1AAF, WF1B,Writelog, Cabrillo. A printed summary sheet must always be enclosed.
Alternatively, logs in ASCII format (or as attached files) may be sent via e-mail addressed to <aricontest@...>.
You will receive an acknowledgement of receipt of your log within 48 hours.

PENALTIES and DISQUALIFICATIONS. Logs will be carefully checked by the Contest Committee and mistakes may cause a score reduction. Disqualification may apply for: excessive number of unmarked duplicates (more than 2%), violation of the "10 minutes rule" (either for band and mode), excessive declared score, log without the summary sheet. instead to disqualify a log, the Committee may decide to penalize it by erasing a percentage of its score.

AWARDS. A plaque with a certificate will be awarded to the top scoring station in each class. Special plaques can be awarded by the Contest Committee if country/continental/call-area participation will justify the decision. A certificate will be awarded to No. 2, 3, 4, 5 top scoring stations in each class as well as to the top scoring stations in each country in each class.

FREE SOFTWARE. Many free software are able to handle ARI DX Contest. Take a visit to ARI DX webpages for download: <www.qsl.net/contest_ari> or <www.ari.it>.

THANKS

Хоть и с опозданием - хочу присоединиться к
поздравлениям команде
UU7J, по моему это первый случай командного
выигрыша WW контеста с
Украины, по крайней мере, за годы независимости,
после развала...

А в команде, если не ошибаюсь, были (по
алфавиту):

UR5FEL, UR5FEO, UR5FUS, US5FEO, UT5UGR, UT5UGW, UT8NA, UT9FJ, UU4JMG,
UU8JK, UU0JM.

И это выигрыш не только команды - с чем я
их и поздравляю - но и
всего украинского контест-сообщества.

Дай Бог, не последний. Успехов и удачи!

Hello ,

Протокол 15 отчетно-перевыборной конференции UCC
г..Запорожье, остров Хортица, 13-15 мая 2005

Открывает конференцию словами приветствия ко всем собравшимся президент клуба UY5ZZ.
В президиуме UT1IA, UR7QM. В зале 94 человека, в том числе зарегистрировавшихся членов клуба 42.
Первый традиционный вопрос-прием в члены клуба. Президент поочередно зачитывает заявления, перечисляет выполненные условия и ставит на голосование кандидатуры кандидатов. В результате голосования в клуб приняты следующие новые члены:
TA1DX,UR0MC,UT7XX,US0KW,UU4JO,UR5ZLK,SP8BRQ,ER3ZZ,
UR7EU,UT2IO,ER3GS,DL6RAI,DK7YY.
Слово просит UR7QM и зачитывает три заявления об исключении или приостановлении членства в UCC

UU0JM.
Большинством голосов принято решение удовлетворить просьбу UU0JM об исключении его из членов UCC.
UT5UGR.
Поступило заявление со следующей формулировкой: ⎧UCC √ тормоз контестинга на Украине. Прошу исключить мой позывной со списка членов UCC■. Поступило предложение удовлетворить просьбу, т.к. точка зрения, изложенная в заявлении, противоречит Уставу клуба. Результаты голосования √ все ⎧за■, кроме 4-х воздержавшихся
UT8NA.
По Интернету от него поступило сообщение о том, что он останавливает свое членство в клубе, о чем письменно он сообщит дополнительно. По этому вопросу выступил президент UCC UY5ZZ со следующим предложением. Поскольку UT8NA не является главным идеологом разногласий между некоторыми представителями UU7J и UCC и его заявление сделано явно на ситуативных эмоциях , то дать ему месячный срок на обдумывание своего заявления, после чего принять соответствующее решение. После такого предложения - результаты голосования √ все ⎧за■.

Отчет президента UCC-В.Латышенко.

1. Очень больной вопрос на сегодня √ уплата членских взносов. По состоянию на момент начала конференции взносы в клуб уплатили 65 человек.
2. UCC √ добровольное общественное объединение, UCC объединяет по общим интересам радиолюбителей-спортсменов, координирует их работу в украинских и международных соревнованиях
3. UCC сотрудничает на равноправной основе с ЛРУ, другими общественными организациями Украины и других стран мира по вопросам соревнований на КВ⌡ Это дословно процитированная выдержка из Устава клуба и этим мы руководствуемся в своей работе. Одним из важных направлений этой работы является организация, проведение и судейство Ukrainian DX Contest▒a. Последние 3 года проводится его электронное судейство. В этом огромная заслуга Николая UT2UZ √ разработчика программы и председателя Судейской коллегии ЛРУ. Благодаря этому мы наблюдаем ежегодный рост количества участников, о чем свидетельствует следующая статистика: 2002г. √ 677участников; 2003г. √704; 2004г. √более 800 участников. Успешное проведение контеста

стало возможным благодаря его спонсорам. Это : RD3AF,UR5FAV, US7QZ, UR0MC, UX7IA, UX1UA, UR7QM,UT2UZ, UT1IA, UY5ZZ, UR3QCW,UT7QF, RU3AA, DF4ZL, DL9FBL,UT3UA,UT5ULB. Большой спонсорский взнос RD3AF потрачен на организацию соревнования, призы, а также покупку пяти компьютеров, которые были вручены в торжественной обстановке наиболее нуждающимся среди победителей в различных подгруппах. Также была оказана большая практическая помощь в подготовке и печати дипломов от UU2JA, UU2JN при спонсорской поддержке SP5VXY, а также специальных досок, которыми награждали победителей в наиболее серьезных подгруппах. Электронное судейство требует предоставления отчетов в электронном виде, однако до сих пор около 30% отчетов поступают в бумажном виде. Для перевода их в электронный вид большую помощь оказали UX7IA, UR7QM, UU2JZ, UT4EK, UT5ECZ, UT1IA,UR3QT,UY5QQ. Напечатана книжка результатов теста 2004 в количестве 300 экз (объем 26 стр) в цветной обложке. Стоимость тиража 680 грн.
4. В настоящее время успешно функционирует новый сайт Украинского контест клуба. Площадку для него и основную работу выполняет UY5YB. Администрирование сайта √ UY5ZZ
5. Традиционно каждый четверг в 21.00 по киевскому времени на частоте 3662 кГц проводится круглый стол клуба. Ранее высказывались мнения о том, что такая форма общения является устаревшей. Однако, поскольку наше общее хобби √ радиосвязь на коротких волнах, проведение круглых столов было признано одной из ее традиционных форм. На круглых столах можно получить последнюю информацию по вопросам контестинга, получить ответы на интересующие вопросы. Также по окончанию круглого стола от UT4EK можно получить ответы на вопросы по результатам соревнований. Он ведет и регулярно обновляет действующую базу данных .
6. Созданы и успешно функционируют два рефлектора: URcontest и URDX , благодаря усилиям и поддержке UT1IA.
7. Ежегодно проводится рейтинг Украинского контест клуба. В этом году рейтинг проводился совместно с KCG и дался очень тяжело ввиду различных концептуальных подходов к рейтингу у UCC и KCG. Тем не менее, рейтинговая комиссия в составе UT1IA, UT2IO, UR7QM, UR3QCW, UX0FF, UT2UZ ,UX1UA,UT4EK своевременно обработала материалы и выложила их в Интернете.
8. Также ежегодно проводятся конференции клуба, на которых члены UCC имеют возможность встретиться воочию, пообщаться, решить насущные вопросы. Основную нагрузку при их подготовке несут UY5ZZ и UT7QF. В этом году существенную помощь в организации конференции мы имеем от UR7QM, UR3QKA, UR5QU, UY5QZ, UR5MID, UT7UJ. Спасибо Диме UT7UJ, его спонсорский взнос практически погасил затраты на аренду зала (200 грн в час)
9. Активное участие принимает UCC в проведении Чемпионатов Украины, Open Ukrainian RTTY Championship, Ukrainian Digital Contest, Low Power Cup of Ukraine.
10. Достаточно высокие места занимает UCC в клубных зачетах таких серьезных контестов, как EU HF Champ., CQ WW, WAE DC. Однако, некоторые члены клуба, отправляя отчеты, по тем или иным причинам не указывают на титульном листе свою принадлежность к клубу, чем явно занижают результат клуба. И хотелось бы, чтобы члены UCC проявляли больше патриотических чувств к своему клубу.
11. В Чемпионатах IARU регулярно работает команда HQ, инициативу в организации работы которой проявляют члены клуба Так в 2004 году вся организационная работа легла на плечи UT7QF и Игорь сумел организовать основные боевые силы контестменов Украины и команда показала достойный результат. Основной костяк EM7HQ это члены клуба
12. Клубный диплом W-UCC-M выдан 47 радиолюбителям. На печатание диплома потрачено 500 грн. В качестве сертификата члена клуба предлагается выдавать диплом W-UCC-M.
13. Клуб успешно сотрудничает с другими международными клубами. Пример этому участие представителей DARC (DF4ZL,DL9FBF,DL6RAI,DK7YY) и Молдавии (ER3ZZ,ER3ZZ) в настоящей конференции . В 2004 году делегация UCC участвовала в работе очередного съезда SPDXC. Фото отчет поездки UY5ZZ, UT7QF, UT8IO представлен здесь, на конференции

Прения по докладу.

UX0FF √ в докладе не упомянут спонсор URDX Contest 2004 √ UR5FAV, который выделил 300$ за первое место в RTTY зачете среди украинских станций.
UR5IOK √ предложение увеличить размер ежегодного взноса в клуб до 50 гривен. В ответ было

сказано, что 2$ - это минимальный взнос, а верхний потолок не ограничен.
UU2JA внес два предложения.
1. С целью создания большей динамичности в URDXC для украинских участников, сделать для них множителем также и области Украины.
2. Выйти с предложением к ЛРУ о совместной координации с СРР аббревиатуры областей. Некоторые аббревиатуры на Украине и в России совпадают, что создает определенные неудобства при работе в соревнованиях.
Все предложения приняты к рассмотрению.

Отчет о финансовой деятельности UCC.
По данному вопросу докладывал президент UCC Латышенко В.Ф. (UY5ZZ).
Отмечено, что официальная доходная часть бюджета клуба формируется за счет членских взносов.
За 2004 год взносы уплатил 61 человек, за 2005 √ 65 человек. Итого 1270 грн
Израсходовано:
- печатание дипломов W-UCC-M √ 500 гр.
- оплата домена urcc (UZ8RR) √ 100гр.
- оплата нового сайта √ 80 гр.
- расходы на Интернет √ 100 гр.
- расходы на телефонные переговоры √ 50 гр.
- замена картриджа для принтера √ 100 гр.
- почтовые расходы √ 200 гр.
- расходы на конференцию √ 100гр.
- приобретение сувениров √ 100 грн
-материальная помощь UX2MM √ 200 грн
Поступило предложение от UU2JA финансовый отчет утвердить. Голосование √ единогласно.
Президент также информировал о том, что работая со спонсорами удалось привлечь дополнительно
не менее 6000 грн в организацию , проведение и для награждения в URDXC 2004.

Выборы президента Украинского контест клуба.

На пост резидента UCC было предложено три кандидатуры: UY5ZZ, UX0FF, UX7IA. Два кандидата: UX0FF и UX7IA заявили о самоотводе. По оставшейся кандидатуре √ UY5ZZ √ было проведено голосование. В голосовании приняло участие 41 член клуба. За √ 41, против √ 0, воздержавшихся √ 0. Таким образом, президентом Украинского контест клуба вновь избран Латышенко Владимир Федорович √ UY5ZZ.
Вновь избранный президент предложил новый состав Совета клуба. Это UT1IA(вице президент), UR7QM, UX0FF, UX7IA, UT7QF, UR0MC. Конференция проголосовала списком и единогласно.

Вопросы проведения рейтинга UCC.

По данному вопросу выступил Председатель рейтинговой комиссии UT1IA. Дальнейшее проведение рейтинга признано необходимым. При этом UCC будет проводить свой рейтинг, а KCG √ свой.
Далее в порядке обсуждения были заданы некоторые вопросы.
UU2JA √ сказывается ли рейтинг UCC на оценке уровня проводимых соревнований? Ответ √ не сказывается, т.к. оценку проводят сами зарубежные клубы.
UT8IM √ все ли спортсмены участвуют в рейтинге? Ответ √ в список включаются все позывные украинских спортсменов, которые фигурировали в официальных результатах соревнований.
UX0FF √ если упразднить рейтинг, то необходимо пересматривать положение об СПС. Пока что это очень удобно, тем более, что не все спортсмены изъявляют желание работать в контестах СПС.

UU2JZ √ рейтинг не должен иметь отношения к СПС и УПС.
UR7QM √ К УПС рейтинг отношения не имеет √ это прерогатива областных отделений ЛРУ и УЧН. А определение претендентов на право получения СПС прямо связано с рейтингом UCC. Других критериев на данный момент нет.

Вопросы спортивной этики.

В последний год возникли разногласия по вопросам спортивной этики между UCC и командой UU7J. Однако, отрадным является тот факт, что по некоторым позициям найдены точки соприкосновения. Импонирует заявление UZ5UZ (UU5MAF). Он работает на современной платформе, демонстрирует нормальное понимание претензий, делает нормальные заявления. В такой ситуации UCC со своей стороны также обещает толерантный подход. Если такая же позиция будет и со стороны UU0JM √ инцидент можно будет считать исчерпанным. Президент отметил, что серьезный вклад в развитие контестинга на Украине сделал коллектив UU7J и он , прежде всего в том, что они выкупили оборудование известной контест-станции UR4ZZA, сумели восстановить все это на своей позиции и показывают высокие результаты. UCC желает коллективу высоких результатов и ЧЕСТНЫХ побед.
Конфликт с UT5UGR можно объяснить следующим образом. Он хороший оператор, но работа без правил неприемлема. Желательно, чтобы он это понял.
По данному вопросу выступили следующие члены Украинского контест клуба.
UX0FF √ данные конфликты могут привести к отрицательным последствиям по работе в Чемпионате IARU нашей HQ. В данном случае надо не переходить на личности, а поддерживать общую идею. Дискуссии в рефлекторе √ это притирка характеров. Но личные отношения должны быть ниже общественных.
UR9IDX √ мнение UX0FF поддерживают все. Также он предложил почтить минутой молчания память UT0ZZ √ Ветер Виталия.
В заключение UT8IO пригласил всех на традиционную радио выставку в г. Мариуполь, которая состоится 21 мая.

Проведено награждение участников и победителей URDXC 2004 и других контестов.
По вопросам поднятым на конференции принято соответствующее решение.

Протоколировали работу UU2JA,UT4EK

Здравствуйте Николай!

Нашел я таки в своих архивах ПЕРВОИСТОЧНИК этого положения!
Авторы его из Горьковской области, как оказалось. Но это дело
давнее, датировано 1989 годом.

У нас в Запорожье такой тест прошел 7 мая 1989 года, организатором
был Игорь UB5QKC (сейчас UT7QF).

ДЛЯ ТОГО, ЧТОБЫ ИСКЛЮЧИТЬ РАБОТУ ТОЛЬКО НА НАБЛЮДЕНИЯХ, ПРИ ПОДСЧЕТЕ ОЧКОВ РЕЗУЛЬТАТ ВЫЧИСЛЯЛСЯ КАК ПРОИЗВЕДЕНИЕ ОЧКОВ ЗА ДВУХСТОРОННИЕ ЩСО НА ОЧКИ ЗА НАБЛЮДЕНИЯ. ТОГДА МАКСИМАЛЬНЫЙ РЕЗУЛЬТАТ ПОЛУЧАЕТСЯ ПРИ ПРИМЕРНОМ РАВЕНСТВЕ КОЛИЧЕСТВА СВЯЗЕЙ И НАБЛЮДЕНИЙ. ПО ОПЫТУ ПРОВЕДЕНИЯ СОРЕВНОВАНИЙ ЭТО ПОЛОЖЕНИЕ БЫЛО ДОПОЛНЕНО ПОНЯТИЕМ ╩СДВОЕННОЕ НАБЛЮДЕНИЕ╩, ПОД КОТОРЫМ ПОНИМАЕТСЯ НАБЛЮДЕНИЕ ОДНОЙ И ТОЙ ЖЕ СТАНЦИИ, ПРОВОДЯЩЕЙ ДВЕ СВЯЗИ ОДНА ЗА ДРУГОЙ, ПРИ ЭТОМ ДОСТАТОЧНО,

ЧТОБЫ В ОТЧЕТЕ УЧАСТНИКА БЫЛИ ДВА ХРОНОЛОГИЧЕСКИ СЛЕДУЮЩИХ ОДНО ЗА ДРУГИМ НАБЛЮДЕНИЯ ОДНОЙ И ТОЙ ЖЕ СТАНЦИИ, РАБОТАЮЩЕЙ С РАЗНЫМИ КОРРЕСПОНДЕНТАМИ, НЕЗАВИСИМО ОТ ТОГО, ЯВЛЯЮТСЯ ЛИ ОТЧЕТЕ ТОЙ СТАНЦИИ, КОТОРУЮ НАБЛЮДАЕТУЧАСТНИК ,ДАННЫЕ СВЯЗИ СМЕЖНЫМИ ИЛИ НЕТ. НЕОБХОДИМО ТОЛЬКО, ЧТОБЫ УЧАСТНИК НЕ ПРОВЕЛ ВНУТРИ СДВОЕННОГО НАБЛЮДЕНИЯ ДРУГОГО НАБЛЮДЕНИЯ ИЛИ СВЯЗИ. ЗА СДВОЕННОЕ НАБЛЮДЕНИЕ, КОТОРОЕ ПО СУТИ СОСТОИТ ИЗ ДВУХ ОДНОСТОРОННИХ УЧАСТНИК ПОЛУЧАЕТ ПЯТЬ ОЧКОВ.

Если сочтете нужным, пошлите ЭТО в Рефлектор,
может для контестменов будет интересно. Сошлитесь
на это мое письмо, если что.
А нет, так нет┘

А сам я письма в Урконтест больше не пишу, только читаю на Яхоо.

И может надо было набрать в кодировке КОИ-8 для Рефлектора 8-(!?

Спасибо.
Всего лучшего.

А я вот

впервые
работал

лишь
первый

Потом
вырубил
его -
только
отвлекает,
да и
цифровой

меня в DI
нету :-).

После ЧУ
клялся
себе(в
очередной

больше
трансивер

включать
не буду,
но
желание
поработать
как
всегда
победило.
Спасибо D4B,

удалось
сработать

Работал

Contesters,

The PJ2T QTH is vacant this year for IOTA and both modes of WAE. It would be a shame to not have the station on the air. If anyone's interested in putting together an operation for any of these three contests, please drop me a message. See www.pj2t.org for details on the QTH.

Thx and 73,

RULES IARU REGION 1 50 MHz JUNE CONTEST
1. Eligible entrants
All radio amateurs in Region 1 who are authorized to use 50 MHz can participate in the contest. Multiple
operator entries will be accepted, provided only one callsign is used during the contest. The contestants must
operate within the letter and spirit of the contest and at no greater power than permitted in the ordinary
licenses of their country. Stations operating under special high power licenses do so "hors concours" and
cannot be placed in the contest proper. Stations operating temporarily outside their "home-country" are for the
purpose of the contest participating as stations in the country where they operate and their logs will have to be
submitted to the VHF-Manager/Contest Committee of that country.Logs send to the contest committee of their
home country shall not be submitted to the adjucating society!
2. Contest sections
The contest will comprise the following sections :
i) Stations operated by a single operator, with no assistance during the contest, using privately owned
equipment and antennas and operating from any location i.e. all the equipment of the station
(transmitters, receivers and antennas, etc) must be located within a single circle of no greater than
500 metres diameter. "
ii) All other entrants

No more than one transmitter may be in use at any one time. A participating station must operate from the
same location throughout the event., i.e. all the equipment of the station (transmitters, receivers and
antennas, etc) must be located within a single circle of no greater than 500 metres diameter.
3. Date of contest
The contest will begin on the third Saturday of June.
4. Duration of contest
The contest will commence at 1400 hours UTC on the Saturday and will end at 1400 hours UTC on the
Sunday.
5. Contacts
Each station can be worked only once, whether it is fixed, portable or mobile. If a station is worked again
during the same contest, only one contact will count for points, but any duplicate contacts should be logged
without claim for points and clearly marked as duplicates.
Contacts made via active repeaters do not count for points. Any telephony contacts made with stations
transmitting in the telegraphy subband shall not count for points.
6. Type of emission
Contacts may be made in A1A, R3A, A3E or F3E(G3E).
7. Contest exchanges
Code numbers exchanged during each contact shall consist of the RS or RST report,(note: for the "T" part of
the report, see section Vib) followed by a serial number commencing with 001 for the first contact and
increasing by one for each successive contact. This exchange must immediately be followed by the complete
(6 character) Locator of the sending station (examples : 59003 JO20DB or 579123 IN55).
8. Scoring
Points will be scored on the basis of one point per kilometre, i.e. the calculated distance in kms will be
truncated to an integer value and 1 km will be added. In case the 4character Locator has been received, the
distance calculated should be the shortest distance between the claiming station and the given Locator
square.
The final claimed score must be shown on the top part of the first sheet.
In order to make contest scores comparable, for the conversion from degrees to kilometres a factor of 111.2
should be used when calculating distances with the aid of the spherical geometry equation (Noordwijkerhout,
1987).
9. Entries
The entries must be set out on log sheets fulfilling the requirements given under rule 12. Multioperator stations
shall be clearly marked as such. A copy of the logs must be sent to the national

VHF Manager or the national
Contest Committee postmarked not later than the second Monday following the contest weekend. Late entries
1f
1At the IARU Region 1 Conference in Scheveningen (1972) it was decided that to effect this:
a) each VHF Manager and/or national Contest Committee shal be responsible for monitoring during contests. Additional monitoring
stations may be appointed but these stations may not take part in the contest.
b) telephony contacts made with stations operating in the telegraphy subband shall not count for points.
c) the national VHF Manager/Contest Committee is responsible for disqualification based upon the results obtained from a) and b)
above.
page IIIf 2 nov02 IIIf- page 2- may04
will not be accepted. The submission of the logs implies that the entrant accepts the contest rules.
10. Judging of entries
The judging of the entries shall be the responsibility of the organising society, whose decision shall be final.
Entrants deliberately contravening any of these rules or flagrantly disregarding the IARU Region 1 bandplans
shall be disqualified 1)
Errors in the logged information will result in the loss of all points for that contact by the receiving station
The claimed contact will be disqualified for an obviously wrongly stated Locator or a time error of more than
10 minutes.
Claiming points for a duplicate contact will be penalized by deducting ten times the number of points claimed
for that duplicate contact from the score.
The contest entrants will not be penalized for the failure of nonentrants to comply with the rules.
11. Awards
The winner in ach section will receive a certificate.
12. Logsheets
A. On paper.
The logsheets for use in the IARU Region 1 contest shall have an upright format not smaller than A4 and shall show
the following columns in the order named :
- date
- time in UTC
- callsign of the station worked
- report sent
- report received
- Locator received
- number of points claimed
A standard cover sheet, containing the essential information required to judge the contest entry and with separate
space for the comments of the national Contest Manager should be used.

A sample contest cover sheet is shown in Appendix 1.
The cover sheet should show the signature of the first operator certifying the correctness of the log submitted.
Paper logsheets prepared by the national societies and satisfying the above minimum requirements may be used.
B. In digital form
The logs shall be in the format defined in Section IIIh.
See also section IIIaa1, item D
Paper logsheets prepared by the national societies and satisfying the above minimum requirements may be used.
REMARKS
The following note is for the information of the participating societies. They may include them at their
discretion in the rules published nationally.
Rule 9: The number of log copies to be submitted is left to the discretion of the national society,
which may e.g. want a second copy for the judging of a simultaneously held national
contest.

11028. RESULTS OF 2004 OCEANIA DX CONTEST

Yahoo group: URcontest (2005)
Date: 2005-07-23 12:25:56 UTC
From: Vladimir A. Gordienko
Topic: 11028 Message: 11028

Hello everyone

The report and full results for the 2004 Oceania DX Contest are now available for viewing on-line at
www.oceaniadxcontest.com

CONGRATULATIONS to all the winners, and especially Mirek Rozbicki VK6DXI who ended up winning the
Oceania Single-Op All Band category in both the PHONE and CW sections. Overall activity was similar
to that experienced in 2003, despite the 10cm solar flux index dropping from around 110 during the
2003 contest to 90 in the 2004 contest. Compared to 2003, there was around a 21% increase in the
number of logs submitted. The increase in participation appears to have offset any decline in
conditions on the higher HF bands. The increased interest is most encouraging and indicates that the
contest is in good health.

We are currently in the process of arranging the production and distribution of the various
certificates and awards for the 2004 contest.

The 69th Oceania DX contest will be held on the first two weekends of October 2005 as follows:

PHONE Section: 0800 UTC Saturday 1 October to 0800 UTC Sunday 2 October
CW Section: 0800 UTC Saturday 8 October to 0800 UTC Sunday 9 October

The rules for the 2005 contest are the same as those for 2004, and will be published on the Oceania
DX Contest web site at www.oceaniadxcontest.com

Thank you to the members of the Oceania DX Contest Committee and the additional log checking
volunteers (ZL1CT and ZL2AOH) who managed the various tasks for the 2004 contest - a huge effort
involving around 200 person hours. We also gratefully acknowledge the financial support provided by
NZART, WIA and the sponsors of awards.

Most importantly, thank you to everyone who participated in the 2004 contest and made it such a
success. We look forward to seeing everyone again, along with new entrants, in the 2005 event. Let's
hope for some good conditions and make it the biggest and best Oceania DX

Contest ever!

73 from

Oceania DX Contest Committee (ZL1AZE, ZL2BSJ, ZL3GA, VK1JDX, VK2AYD, VK2CZ, VK2FHN, VK3TZ, and

Здравствуйте, UR0MC.

Вы писали 16 августа 2005 г., 17:41:02:

UTP> 160 и 80 метров. Вид работы SSB.

А может быть, пока не поздно, имеет смысл добавить CW?
Или организаторы надеются таким образом привлечь "картофельников"?

Знаю, по крайней мере, трех человек из Луганска, которые из-за
отсутствия телеграфного зачета не будут работать в Кубке...

11244. 2005 OCEANIA DX CONTEST

Yahoo group: URcontest (2005)
Date: 2005-09-13 23:03:13 UTC
From: Vladimir A. Gordienko
Topic: 11244 Message: 11244

Hello everyone

A reminder that the 69th Oceania DX contest is happening on the first two weekends of October as
follows:

PHONE Section: 0800 UTC Saturday 1 October to 0800 UTC Sunday 2 October 2005
CW Section: 0800 UTC Saturday 8 October to 0800 UTC Sunday 9 October 2005

You can expect to hear some of the rarer prefixes in the Pacific region as well as plenty of VK and
ZL stations, including K7C on Kure Island. The list of notified operations is available at
http://www.oceaniadxcontest.com . Please email zl3ga@... if you wish to add an operation to
the list.

The objective is for Oceania transmitting stations to contact as many stations as possible both
inside and outside the Oceania region. Non-Oceania transmitting stations are to contact as many
stations as possible inside the Oceania region.

The exchange is RST plus serial number. If the station worked does not send a serial number, then
you can log the received number as 001 [2005 rule change]. Each QSO counts 20 points on 160m, 10
points on 80m, 5 points on 40m, 1 point on 20m, 2 points on 15m and 3 points on 10m. Final score is
the total QSO points multiplied by the total number of prefixes worked (each prefix counted once per
band). Send CW cabrillo logs to cw@... and Phone cabrillo logs to
ph@... . Paper logs are to be addressed to PO Box 6464, Wellington 6030, New
Zealand. The closing date for the submission of logs is 6 November 2005.

The complete set of 2005 rules is available at
http://www.oceaniadxcontest.com .

We look forward to seeing as many of you as possible in the contest. Please spread the word and lets
hope for some good conditions to make it the best ever Oceania DX contest.

Hello!

This e-mail is to invite all contesters to have a go in the European Sprint contests 2005. The phone contest is on Saturday 1st October and the CW leg is the following Saturday, 8th October.

If you're wondering which software to use, DL2NBU's program has been written specially for this contest. It is very much like K1EA's CT, and it is FREE for download from the new Eu Sprint web site <http://www.eusprint.com>.
SD by EI5DI, TRLog by N6TR, WriteLog, N1MM Contest Logger (and many others) all support the Eu Sprint, and if you prefer to log on paper, that's fine as well. We accept any fixed column ASCII file, too.

So, we hope you will give the Sprints a try in October, and then send your logs to <eusprint@...>. The full Eu Sprint rules are shown below.

73 from the EU Sprint Gang
G4BUO, I2UIY, OK2FD & 9A6XX

About Eu Sprint:
- download the FREE software,
- rules in English, Italian, French, Spanish, Portugese, Russian, Czech, German, Polish, Greek, Croatian
- all past results from 1994,
- download full logs and ubn reports,
- all time records,
- find more information about Log Checking,
- and much more about the Eu Sprint....
You will find everything here: <http://www.eusprint.com>

Eu Sprint Contest - 2005

ENTRANTS: any licensed station may enter the Sprint. European stations can work everybody; stations outside of Europe can work only European stations.

CATEGORIES: Single Operator ONLY. Only ONE signal may be aired at one time. Low Power entries (up to 100W) will be indicated by an asterisk (*) in the listing.

DATES:
EU SPRINT Autumn:

* SSB: first Saturday in October - 1 October 2005 - managed by I2UIY
* CW: second Saturday in October - 8 October 2005 - managed by OK2FD

TIME: from 15:00 UTC until 18:59 UTC.

BANDS: 20, 40 and 80 metres only.
Pilot frequencies are: SSB: 14.250, 7.050, 3.730. CW: 14.040, 7.025, 3.550

EXCHANGE: all of the following data MUST BE PART OF THE EXCHANGE:
a) your callsign,
b) the other station's callsign,
c) your serial number starting from 001 (RST not required),
d) your name or nickname.
Please note that BOTH stations MUST repeat BOTH callsigns DURING the exchange.
A valid exchange is: "OK2FD de I2UIY 118 Paolo" while "OK2FD 118 Paolo" is NOT a valid exchange.

SPECIAL QSY RULE: if any station initiates a call (by sending CQ, QRZ?, etc.), he is permitted to work ONLY one station on the same frequency. He must thereafter move AT LEAST 2 (two) kHz before he may call another station or before he may solicit again (CQ, QRZ?, etc.) other calls.

VALID CONTACTS: valid contacts are QSOs correctly logged and confirmed. Each operator may use ONE and ONLY one name during the Sprint. If the exchange is copied incorrectly, that operator will receive zero (0) points. In case of miscopied callsigns, both stations will receive zero (0) points for that QSO.

SCORING: each valid QSO counts one 1 (one) point. The final score is the total number of QSOs.

AWARDS: Colorful certificates will be issued to the winners of each Sprint, and to the leaders in each country.

EU SPRINT PLAQUE: A special plaque will also be awarded for the top three scores from all four contests combined. To be eligible for this award an operator must enter at least three of the Sprints in the year. Results will be forwarded as soon as possible to Leagues, magazines and bulletins.

LOGS: a single chronological log is required. Please send us your log via email or on a floppy disk, if you use computer for logging. Use any of the available software or send a plain ASCII file. Eu Sprint is supported by all the major software (N6TR, Writelog, N1MM, SuperDuper and many others; see the software information on our webpage).
If you want the latest release of the DL2NBU software, you can download it from the new EU Sprint web site: <http://www.eusprint.com>.
Log files must be sent NO LATER than 15 days after the contest to: <eusprint@...>. The receipt of your electronic log will be immediately confirmed. If you do not receive a confirmation within few hours, try again or use the postal system.

Disk logs, or paper entries must be posted NO LATER than 15 days after the contest to the appropriate address:
* Autumn SSB Sprint: Paolo Cortese, I2UIY, P. O. Box 14, 27043 Broni (PV), Italy.
* Autumn CW Sprint: Karel Karmasin, OK2FD, Gen. Svobody 636, 674 01 Trebic, Czech Republic.

Thanks in advance for your participation de: G4BUO, I2UIY, OK2FD & 9A6XX.

MORE INFO http://www.sk3bg.se/contest/sacnsc.htm

The 47th SAC in 2005 is arranged by NRRL

Date:

CW: September 17, 1200 UTC to September 18, 1200 UTC
SSB: September 24, 1200 UTC to September 25, 1200 UTC

1. Aim of the contest:

The aims of the contest are to promote amateur radio activity within Scandinavia as well as to encourage amateur radio communications between Scandinavian and non-Scandinavian amateur radio stations. Non-Scandinavian stations will try to work as many Scandinavian stations as possible. Scandinavian stations are defined by prefixes as follows:

Svalbard and Bear I. JW
Jan Mayen I. JX
Norway LA - LB - LG - LJ - LN
Finland OF - OG - OH - OI
Aland Is. OFO - OGO - OHO
Market Reef OJO
Greenland OX
Faeroe Is. OY
Denmark OZ
Sweden 7S - 8S - SA - SB - SC
SD - SE - SF - SG - SH
SI - SJ - SK - SL - SM

Iceland TF

All other legal prefixes according to the ITU definition of Scandinavian prefixes are good for the contest and multipliers as well.

2. Eligible entrants:

Radio amateurs and SWL's all over the world are invited to participate.

3. Periods:

CW: 3rd full weekend of September each year.
SSB: 4th full weekend of September each year.
Starts 1200 UTC Saturday and ends 1200 UTC Sunday.

4. Sections:

a) Single Op./Single TX/Multi Band - High Power
[SINGLE-OP ALL HIGH]
Single Op./Single TX/Multi Band - Low Power (output 100 W or less)
[SINGLE-OP ALL LOW]

Single Op./Single TX/Multi Band - QRP (output 5 W or less)
[SINGLE-OP ALL QRP]

Single operator means that one person performs all operating, logging and spotting functions without any assistance from other person(s). The use of DX-Cluster is not allowed.

b) Multi Op./Single TX/Multi Band
[MULTI-ONE]

Only one signal may be transmitted on any band at any time (running station). When operation has started on one band, the station must remain on that band for at least 10 minutes. The 10 minutes-period starts with the first QSO worked on that band.
Exception: It is allowed to work a station on another band if it is a new multiplier (multiplier station). The multiplier station is allowed to be on the air at the same time as the running station. The multiplier station must also stay on the "multiplier band" at least 10 minutes. This rule is similar to the CQ WW DX Contest.

Use of multiplier spotting assistance from other persons than the station-operators is not allowed. However, DX-Clusters may be used by Multi Operator stations.

c) SWL - Single Operator/Multi Band
[SWL]

Only Scandinavian stations may be logged for points. Scoring as for transmitting sections.

5. Bands:

3.5 - 7 - 14 - 21 - 28 MHz bands may be used according to IARU HF Band Plans.
(NB: 3560-3600, 3650-3700, 14060-14125 and 14300-14350 kHz to be kept free from contest traffic).

6. Contest exchanges:

The contest exchange consists of RS(T) plus serial number starting with 001 (e.g. 59(9)001).
(QSO's after 999 are numbered 1000, 1001 etc). The same station may be worked once on each band. Cross-mode and/or cross-band QSO's are not allowed.

The minimum content of a valid contest QSO is correct callsign and correct contest exchanges.

7. Scoring:

Two-way QSO with sent and received exchange counts for QSO-points.
EUROPEAN stations credit their logs with one (1) point for every complete Scandinavian QSO on each band.

NON-EUROPEAN stations credit their logs with one (1) point for every Scandinavian QSO on 14, 21 and 28 MHz and with three (3) points for complete QSO on 3.5 and 7 MHz bands.

8. Multipliers:

Worked call-number areas (0-9) in each Scandinavian country are valid as multiplier on each band.
(e.g. SI3, SK3, SL3, SM3, 7S3 and 8S3 are all in ONE district and counts ONE (1) multiplier on each band).
Portable stations without a district number count for the 10th area (e.g. LA/G3XYZ counts for LA0). OH0 (Aland Is.) and OJ0 (Market Reef) are separate call areas. SJ9 and SI9 counts for the 9th district in Sweden.

9. Final score:

To calculate the final score, multiply the sum of QSO-points on all bands with the sum of multipliers worked on all bands.

10. Logs:

Signed original logs (or copies of original logs) must be submitted separately for CW and SSB. Single operator and multi-single logs must be submitted in chronological order.
Logs to be filled in the following order:
Date and time UTC, Band, Station worked, Exchange sent, Exchange received, Multipliers (e.g. OZ4, SM3, SM4, OH2 etc) and Points.

SWL-log must contain:
Date and time UTC, Band, Scandinavian station heard, Message sent by Scandinavian station, SWL's own report, Station worked by Scandinavian station, Multipliers and Points.

SUMMARY SHEET.
All entries must be followed by a summary sheet showing station callsign, contest category, name of operator(s) and address. Indicate number of QSO's per band less duplicates, number of duplicates per band, multipliers per band, QSO-points per band and final score. A Single Op. log not showing the power category will be counted as High Power.

MULTIPLIER SHEET.
All entrants must submit a multiplier check list for each band with more than 200 QSO's.

DUPLICATE CHECK LIST.
Possible duplicate QSO's must be shown in the log and counted for zero (0) points. Each entrant shall submit a duplicate check list for each band with more than 200 QSO's. Duplicate check list to contain worked stations listed e.g. by DXCC-entities and call areas.

ELECTRONIC LOG.
Electronic submission of logs is encouraged - and in fact required - for all top scoring entrants and all who use a computer to log or prepare the logs. The CABRILLO format is preferred. Please insure that you fill out all of the header information. If you submit a CABRILLO log, no additional summary sheet is required. (However, if you like to compare your claimed scores with others before the final results are published, you are encouraged to enclose your summary sheet as well).

CLICK HERE for more information on the CABRILLO format.

If you cannot submit a CABRILLO log, you may submit the ASCII output from most of the popular logging programs such as LAOFX, NA, OH2GI, SD, TR and Writelog. If the log is not in CABRILLO format, a separate summary sheet is required. Please name your files with yourcall and the file type.

Example: AA1AA submits a CABRILLO file. It should be named AA1AA.LOG. If AA1AA chose to submit a non CABRILLO file such as TR's .dat file, he should name the log file AA1AA.DAT and the summary file should be AA1AA.SUM.

Logs sent on disk should be on 3.5", 1.44 Mb disks.

Logs submitted via e-mail should in the Subject: line include mode (CW or SSB), your callsign and the category you are entering, e.g., SOMBHP, SOMBLP, MOST, etc.

All logs received via e-mail will be confirmed via e-mail.

Basic rules: Only one QSO on each line. Each line must contain following information: Date and Time (full) UTC, Band, Mode, Station worked, Sent (full) exchange, Received (full) exchange, Multiplier (if applicable) and Points (dupes to be marked with (0) zero).

Computerized logs must be checked for typing accuracy. Please leave all your QSO's in the log, dupes included. The log checking software will find the dupes and mark them with zero points.

If you send log on disc, paper log is not mandatory. Summary sheet must always be on paper (not when using e-mail). Disc must be clearly labelled with call, contest name, class and date of the contest. CW and SSB portion can be on same disc. Please use file-names like: AA1AA.DAT or AA1AA.CW or AA1AA.SSB and AA1AA.SUM

11. Declaration:

With her/his signature on the summary sheet, the participant declares that all the rules are observed and that the station was operated in accordance with the rules and regulations for amateur radio stations in the country of the participant.

12. Address for logs:

The arrangement of the contest alternates between NRRL, EDR, SRAL and SSA in that order. For correct address, see the heading.
E-mail logs to:

E-mail:
la4yw@...

13. Closing date for logs:

Logs and accompanying control-sheets, addressed to the organizing Society, shall be mailed not later than October 31st the year of the contest.

14. Awards:

TRANSMITTING SECTION:
The top scoring High Power and Low Power station in each country as well as in each US call area, in each category, both CW and SSB, will receive a Contest Award, provided a reasonable score is made.
QRP operators will be listed in one common list for all non-Scandinavians.

The top scoring Single Operator (QRO) station on each continent may be awarded a Contest Plaque provided a reasonable score is made.

SWL:
The top scoring station outside Scandinavia will receive an award.

ALL SECTIONS:
Depending on the number of participants, the Contest Committee may consider additional awards.

15. Dispute:

Violation of Amateur Radio Regulations in the country of the contestant or of the rules for this contest, unsportsmanlike conduct and the taking of credit for unverifiable QSO's or multipliers may lead to disqualification. Each unmarked duplicate QSO found by the Contest Committee will result in a penalty of five (5) QSO's of same value as the duplicate. A log showing more than one (1) percent unmarked duplicate QSO's will be disqualified unconditionally.

The decisions by the Contest Committee are final and definite.
Right to changes in this rules are reserved.

The 48th SAC in 2006 will be arranged by EDR - Denmark

Здравствуйте, Vladimir.

Вы писали 24 сентября 2005 г., 3:57:06:

VAG> МЕЖДУНАРОДНЫЕ СОРЕВНОВАНИЯ ПО РАДИОСВЯЗИ
VAG> "КУБОК ДНЕПРА'2005" - "Dnieper Cup'2005"

VAG> A - абсолютный победитель MIX (RTTY, SSB и CW), индивидуальные
VAG> станции;
VAG> B - абсолютный победитель MIX (RTTY, SSB и CW), коллективные
VAG> станции;
VAG> C - победитель RTTY-тура, индивидуальные станции;
VAG> D - победитель SSB-тура, индивидуальные станции;
VAG> E - победитель CW-тура, индивидуальные станции;

VAG> CATEGORY: необходимо указать категорию, в которой заявляется Ваша
VAG> радиостанция A, B... или M.
VAG> Участник, предоставляющий отчет для контроля, в этой колонке проставляет
VAG> знак Z.

А можно ли заявляться в нескольких подгруппах сразу, например:
A+C+D+E или F+H+J+L или G+I+K+M

По смыслу - вроде можно, по времени и по виду излучения эти группы не перекрываются, они независимы одна от другой.

Если да, то как это пометить в отчете? Или присылать отдельные отчеты за каждую подгруппу (дублирование - зачем)? Или вообще низзя патамучта?

Dear Contest Fellows,
After my announcement of closing D4B project I receive hundreds of letter from people who like to buy it in variouse prices from thousand to 500 thousands dollars
My first decision was to sale it to locals (that unique location have great interest of local people also and they are ready to pay fantastic amount of the money for D4 just only to own that property) but after thinking about that and look in my heart I decide that will be not good if amateurs will loose such great location
I decide to sale it to RD3A/RD3AF Valery Komarov (with my opinion he is most eager person today who like to build contest station and he is very enthuziastic on that) for price ONE USD and I really hope Val will realize his plans for contesting like I do and I will support him how much I will be able to do

U.S. Department of Justice

United States Attorney
Northern District of California

11th Floor, Federal Building
450 Golden Gate Avenue, Box 36055
San Francisco, California 94102

FOR IMMEDIATE RELEASE

Tel: (415) 436-7200
Fax: (415) 436-7234

June 4, 2004

The United States Attorney for the Northern District of California announced that Roman Vega, 39 of Ukraine, made his initial appearance in federal court in San Francisco today following his extradition from Cyprus on a 40-count indictment alleging credit card trafficking and wire fraud. Mr. Vega entered a not guilty plea to all charges.

According to the indictment, which was unsealed today, Mr. Vega is alleged to have used Internet chat rooms to traffic in credit card information of thousands of individuals that had been illegally obtained from sources around the world, including credit card processors and merchants. Mr. Vega was also allegedly an operator of a Web site at

www.boafactory.com, where stolen and counterfeit credit card account information was allegedly bought and sold.

In particular, the indictment charges Mr. Vega with 20 counts of wire fraud under 18 U.S.C. ? 1343 and 20 counts of using of unauthorized access devices (credit cards) with intent to defraud under 18 U.S.C. ? 1029(a)(2). The maximum statutory penalty for each count in violation of 18 U.S.C. ? 1343 is 20 years imprisonment, a fine of $250,000, plus restitution if appropriate. The maximum statutory penalty for each count in violation of 18 U.S.C. ? 1029(a)(2) is 10 years imprisonment, a fine of $250,000, plus restitution if appropriate.

However, any sentence following conviction would be dictated by the Federal Sentencing Guidelines, which take into account a number of factors, and would be imposed in the discretion of the Court. An indictment simply contains allegations against an individual and, as with all defendants, Mr. Vega must be presumed innocent unless and until convicted.

Following the government's motion to detain defendant as a flight risk pending trial, United States Magistrate Judge Joseph C. Spero remanded Mr. Vega into custody pending a detention hearing to be held on Wednesday, June 9 at 9:30 a.m. The defendant is also scheduled to appear for a status conference before United States District Judge Charles R. Breyer on June 9 at 2:15 p.m.

United States Attorney Kevin V. Ryan stated: "This case signifies the Northern District of California's commitment to bring criminal charges against those alleged to be major traffickers of stolen credit card account information. It also should serve as an example to individuals abroad who commit frauds against our country's citizens and institutions that the Department of Justice will vigorously seek their extradition to the United States."

The prosecution is the result of an investigation by the San Francisco Electronic Crimes Task Force, which includes agents from the United States Secret Service and the United States Postal Inspection Service. The United States Embassy in Cyprus and the authorities from Cyprus also substantially assisted in Mr. Vega's extradition.

The investigation was overseen by the Computer Hacking and Intellectual Property (CHIP) Unit of the United States Attorney's Office. Assistant United States Attorneys Kyle F. Waldinger and Christopher P. Sonderby are prosecuting the case.

A copy of this press release may be found on the U.S. Attorney's Office's website at www.usdoj.gov/usao/can. Related court documents and information may be found on the District Court website at www.cand.uscourts.gov or on http://pacer.cand.uscourts/gov.

All press inquiries to the U.S. Attorney's Office should be directed to Assistant U.S. Attorney Christopher P. Sonderby, Chief of the CHIP Unit, at (408) 535-5037, or Assistant U.S. Attorney Matthew J. Jacobs at (415)

this puts it more in perspective. In this breakdown i show
the spotters who
made lots of spots for a single dx station. The columns are
the spotter,
the dx, the number of spots for that dx station, the total
number of spots
the spotter made, and the percentage that were for that one dx
station.

from this, dl7bo wins the cheer leader award by making 42 of
his 42 spots
for 9g5a. there are obviously several others who were only on
the network
to spot specific stations though.
If you look at the stations that made large numbers of spots

you can get an
idea of how often a station who was spotting anything without
bias would
spot any given dx station. some variance is obviously
possible due to
propagation from various spotters to different areas of the
world, which
bands the spotters may have been on more, and how much they
did s&p vs
running.
The spots from w3lpl are probably the best example, assuming
they were
spotting whatever they heard at the highest point they didn't
make more than
2% of their spots for any single station.

seems to be lots of these this time. in the past i have seen
some software
problems that caused self spots, but these don't seem to
follow that kind of
pattern. some are obviously stations putting in multiple
spots for
themselves, others just one. i can't see how putting in one
spot for
yourself would really help in a contest. even those putting
in multiple
spots likely got lost in the huge volumne of other spots.

Single spotter spots.

This breaks down only the spots made by spotters that made
only 1 spot in
the whole contest. out of the 37k spots made in the contest
only 1350 spots
were made by calls that only made one spot. of these about
100 were vhf
spots, and another 100-150 were warc bands, cw, rtty, or other
non contest
stuff.

The columns below are: dx call, total spots they got in the
contest, total
single spotter spots, % of their spots that were single
spotter spots, the
count of single spotter spots from dxsummit, and the % from
dxsummit
DX Total All DXSummit
IT9RBW 31 29(93%) 3(9%)
6Y2Z 383 19(4%) 5(1%)

FY5KE 207 10(4%) 3(1%)
V26B 302 10(3%) 2(0%)

JT1JA 60 10(16%) 4(6%)
J49Z 115 10(8%) 7(6%)
5U7JB 111 9(8%) 3(2%)
UU7J 139 8(5%) 3(2%)

now look at the relatively rare stations spotted like 5u7jb or
3v5a, the low
percentage of single spotter spots are likely from dx hunters
who were just
out looking for new countries, worked them and turned off
their radios.
low spot totals with high percentages for relatively common
stations can
point to suspicious spotting activity.

so sv9cvy spots a couple stations, then gets spotted by a
bunch of stateside
calls from the same ip address from greece.
apparently he must know about the 'single spotter' analysis
and tried to
spot a few other stations also... sorry, its not that easy.

ok, lets see if this makes any sense.
cu2cr used .102, .66, and .124 ip addresses, but cu2pm also
used .102 and
.124.
dxcc also used .102 and .124 that were used by both cu2cr and
cu2pm.
ve3kz used the same .102, but the other calls used .124.

the only unique one is cu2af who spotted cu2cr so lets ignore
that one even
though it came from the same isp.

it would look like whoever was spotting as cu2cr, cu2pm,
va2am, ve2ef, and
wa4tt liked cu2t, but didn't like cu2b or cu2a.

then some more from another ip block...
cu2cr spotting cu2t and also being spotted by cu2pm from the

and all with very similar spot comments, all caps in only a

interesting comment that cu2t op is cu2af, who also put in
spots for cu2cr.

All too confusing, and my eyes are starting to cross from
looking at all
those cu2 calls spotting each other so it must be time to quit.

Очень достойный результат.Поздравляю.
С позиции US4IXQ " пытался" работать Роман UX2IO
но он кажеться отработал всего лишь половину вашего
результата.Впечатление о 80ке такое что никто и не пытался
слушать эфир а только постояное CQ.Стать практически негде.
Между станций эфир 59-59+10.Принимать можно было когда
обе станции по бокам молчали,т.е только в паузах.
Раньше сам работал на этом диапазоне но мне кажеться
такого не было.Это сколько же надо мощности что бы раздвинуть
эту толпу.Удивительно как вам удалось наработать столько територий.
Натягивали Beverages на Африку и Северную Америку иногда помогало.
С Африканского направления ничего сработать не удалось.
А вообще тяжело когда куча антенн и также тумблеров.Пока найдёшь
откуда станция зовёт корреспондент и звать перестаёт.

Это Роман не слышал кучу станций из 3-й зоны на нашем сунсете!
Я ему пытылся подсказать....
На нём стоял рой W6 W7 ! Но увы он еле принял двоих!
Зато частоту 3792 +/- 6 кГц окупировал! Толпы рядом не
было...Раздвигать никого не надо было ....
Зачем было давать бестолку CQ если не можешь ничего принять :-)
Как говориться и сам не гам и никому не дам....
А Сергей UT3UA придерживался другой тактики. Вот и результ.

Hello Bob,

I've updated SD so that it's very simple to configure for
your contest - you just select a template.

SD runs on any Windows PC and is free from
www.ei5di.com/sd/sdsetup.exe

Choose the "Ukrainian DX, DX" or the "Ukrainian DX, Ukr"
template as appropriate.

Work everyone, exchange 59(9) + Serial. Ukraine stations
will send 59(9) + oblast (2 characters), but no serial.

After the contest, use SDCHECK (Option 1) to create your
Cabrillo format .LOG file. Email it, as an attached file,
to urdx@... within 30 days. For the Contest Name,
specify UKRAINIAN DX 2005.

73,
Paul EI5DI

5 - номер колонки, вероятно.
Бывают случаи, когда курсору полезнее прыгать не в поле позывного, а в любое другое (время - в режиме "post contest", контрольный номер и потом имя - в спринте и т.п.). Процессом лучше управлять осознанно :-)

Another weekend of high level QRM all over the bands again! Every weekend there seems to be nothing but these damned contests leaving no chance for ordinary QSO's and no chance to have ones sked not to mention the high level of poor operating one hears at all times from that part of the world!!!!!!!!!!

Fed up with these weekend contests, every weekend. Maybe an idea would be to try contesting on UHF frequencies!!!!!!!!!!!!!!!

Здравствуйте, Vladimir

Вы писали 9 ноября 2005 г., 15:31:09:

VAG> 7 мая - это день, когда Попов изобрел радио,

А Попов-ли изобрел радио? А что делали Герц, Максвелл, Хевисайд и многие другие?

7 мая - это день, на который Сталин назначил празднование дня Радио, назначив Попова _единственным_ изобретателем.

Особенно рьяно его кинулись отмечать теле- и радио- журналисты, обьявили _своим_ праздником :-)

---
4 октября - это день рождения радиотехники?

Именно в этот день в 1886 году, то есть 119 лет назад, профессор Герц обнаружил, что связь между двумя отдалёнными друг от друга спиралями при электрическом разряде оказалась сильнее, чем можно было ожидать от действия одной лишь индукции. Тогда он начал планомерно исследовать это явление ("очень быстрые электрические колебания" - радиоволны), то есть занялся тем, что сейчас мы называем радиотехникой.

Что-то, видать, и у нас в этот день открыли :-)

Ну и ради Бога! Как говориться, нет такого события, которое не могло бы послужить нам поводом его отметить! :-)

VAG> Всех коллег с праздником !

Присоединяюсь!

Привет всем !
Печальные новости...

Hi folks,
we have lost another friend.....

Well known DXer JT1BG, Baatar Sambuu, became a SILENT KEY on November 13. He had been having some health problems the past year. Baatar was first licensed in 1977 and was one of the more active stations from Mongolia. He provided many DXers with their first Mongolia and zone 23 contact. Baatar held DXCC Honor Roll, 5BDXCC, 5BWAC, and 5BWAZ (the first in zone 23). He leaves behind a wife, OD; son JT1CT, Jargal; daughter JT1CC, Oyuna; and a grandson. He liked to tell the story of how his grandson would sit on his lap, put on the headphones, and spin the VFO. He would ask, "Grandpa, how come you say funny words like Juliet Tango One?" Baatar was busy chasing DX up to the very end. He was last spotted on 20 meters November 10 and with the family callsign JT1M on the morning of November 13 in the JIDX contest. RIP OM. The airwaves from Mongolia just got a little quieter.

The rules for the 2006 contests, together with a list of 'experts', will be up on the web site www.bartg.demon.co.uk by the weekend.

The BARTG HF RTTY contest in March has a new class for 6 hours of operation which can be spread through the weekend. I hope that this will encourage those who have family commitments, have to work at weekends, or are just getting old like me!

Good luck to everyone in all the 2006 contests .. see you on the screen for the SARTG contest on January 1st.

Всем GD !
Уважаю инение каждого высказавшегося .Хотя со многими и не согласен ...
Немного изложу и свои взгляды :
1. По поводу прозвучавших призывов и эпитетов относительно Укороченных
позывных -
>Станций типа M7W, DP4K, P3A, R3R всё больше и больше. Вот и
>надо, чтобы они соревновались в одной группе среди "элиты". А то ведь
>заявляются среди HP или LP наравне с обычными станциями. Посмотрите
>кто в топах- в основном, подобные позывные. Или результат умножать на
>какой-нибудь "коэффициент
Подмечено верно .Только дальнейшая логига - не понятна .Давайте запретим
нашим достойным контестменам УПС ?! И пусть тогда мы будем вообще на
десяток мест ниже .И так - успешно выступать с Украины - вообще не реально .
Так мы еще и сами себя по принципу : "Не з'ім то піднадкусюю"
Мы уже не раз пытались выработать справедливые Условия для всех ...И пред-
лагали категории разбить типу антенн - веревки / яги и с компьютером и без и
тьму другого ... Но - основные Тесты так и остаются , как были - без разграни-
чения - в частности - Укороченый или полный позывной .Раз уж ВЕСЬ Мир давно
перешел на работу с УПС - то нам то зачем - надо у себя отменять ?! Здесь ,
кстати все продумано и до мелочей УПС предназначен лишь для достижения
более высоких спортивных Результатов .И для внутриукраинских Тестов оговорено -
не используется ... А тем , кто занимается лишь DX - ингом - он вобщем-то и не к чему ...
2. По поводу отношений ЛРУ и не членов ЛРУ .
Напомню - ЛРУ это ЕДИНСТВЕННАЯ Организация представляющие наши интересы .
Единственная зарегистрированая в Министерстве юстиции Украины .Единственная
представляющая Украину в IARU .Не лишне напомнить сколько сил и здоровья ушло
на все это ... И на то , что бы нами перестали руководить полковники - артелеристы и
быть под пристальным вниманием "компетентных органов" ...И - вспомним поименно -
в Руководстве ЛРУ нет и не было ни одного функционера и теоретика .Это все до сих
пор активные HAM-ы , которых мы все все их слышим постояннно в эфире ....
Добровольное членство в ЛРУ - это наше завоевание .И на всех Этапах ломки Системы
доставшейся от СССР , ЛРУ выступала от имени всех HAM-ов .Пытаться не замечать
всего , что достигнуто - по крайней мере - не тактично ... Можно оправдываться при
переходе на какие-то конкретные личности ... Но и здесь - История расставит все по
местам : эти мелочи забудутся и останутся лишь ДЕЛА .А их любой (я намерено
говорю лишь о Руководстве ЛРУ) сделал не мало ...
Вполне понятна и позиция Укрчастотнагляда - все отношения с HAM - только через
органы ЛРУ .И другого быть и не может ! Представьте себе , что вы будете разбираться,
скажем с Клубом собаководства , как правильно предъявить Регистру малотонажное
парусное судно и т.д. ...
Отсюда и надо строить свои личные отношения с ЛРУ .Если ВЫ желаете иметь
крепкую Организацию , способную защитить ВАШИ интересы - надо прежде всего
обеспечить основные принципы ее существования - т.е. массовость и финансовое
Положение .А позиция - поглядим со стороны , что там у них получится - как у
оставшихся 80 процентов имеющих лицензию - как раз и есть наше извечное :

"Моя хата с краю ..." Ссылки на то , что в США и т.д. всего лишь 20 процентов от общего числа HAM-ов - члены ARRL , RAC и т.д .- для наших реалий - не подходят .У них там значительно лучше работают Законы и основную массу возникающих в HAM-стве проблем общественного характера - можно решать с помощью обычного Законодательства .
Нам же еще очень многое предстоит преодолевать самим ... Вспомните , хотя бы принятие Закона о Связи ... И как едва отбились , что бы нам депутаты не насчитали ежегодных Сбор за использование Частот из рассчета 7000 грв за 1 Мгц ....
Понятно , что эпизодически в ЛРУ могут заставить "побежать" и конфликты со скидыванием антенн с крыши местными ЖЭУ и т.д. Но это мало что изменит в Корне .Надо стремиться все таки , что бы Все , кто имеют лицензию - стали членами ЛРУ .Тогда и будем иметь Организацию,
гораздо эффективную и способную отстоять Права любого HAM-а на любых Законодательных уровнях ... А пока - обвинять (не будучи членом) ЛРУ , что она отстаивает лишь интересы своих
членов - по крайней мере - не корректно ...
3.Вопрос с EXTRA категорией возникает закономерно лишь в ракусе Контестов .Узаконить то , что
уже для основной массы - обыденность - просто необходимость .Вспомните хотя бы работу в ARRL Contest ... Выдавать "200 watts" разгребая pile-up W6 и проходить там на пару баллов громче
какого-то DL дающего "KW" - это не нонсенс ли ?! Теперь имеем (опять же благодаря ЛРУ!) возможность оформить 1 Квт для участия в Международнiх соревнования .Но опять остаются юридические ляпсусы - а как быть с этим PA в повседневной работе ?! Если он уже построен и стоит на столе ... Уменьшать мощность ?!Делать еще один , который точно подпадает под вариант "200 ватт" ?!
Вот и приходим к тому , что и прозвучало : нужна категория EXTRA ! Причем - вполне логично -
никаких частотных ограничений для 1-ой категории нет .А лишь те , кто захочет узаконить 1 квт -
будут и иметь эти "побочные" последствия - разборки с Санэпидемнадзором и т.д. Они и сейчас уже существуют ....Просто при детальной разработке и приведению этих предложений к уровню Закона - надо учесть все "острые углы и подводные камни " ... И использовать опыт россиян - у них это все вполне учтено ...
4.Все остальные моменты Предложений обсуждать нет смысла .Они и так не вызвали разногласий...
Да я их и сам поддерживаю ... И - обсуждал еще до этого , как член КВ-комитета ЛРУ ...

Le site de l'UFT !
http://www.uft.net
UFT yearly HF contest

The goal of this contest is to bring about new meetings on the bands between the Union Française des Télégraphistes (UFT) members and all the other Hams.
Non members of the UFT are warmly invited to enter this contest.
It could be for them a bargain to take further skeds to get some needed sponsoring to enter the UFT as active member.
However, to be a sympathizer member, sponsoring is not necessary. But entering the contest is offer to you by the same way.

The length of the contest had been chosen very short (3 times of 3 hours).

A free software is available on the UFT web site to be downloaded (running under Windows 98, 2nd edition and more)..
Write : "http://www.uft.net/download.php?lng=fr" on your browser (copy and paste) then click on "TESTUFT". ; Do the same to get the Member database clicking : "UFT_mini.dbf".
This free software had been developed by a Ham (F6ENO) for Hams . So if you find some bug, please don't worry but be kind to inform Alain, F6ENO at : f6eno@....
The log can work in real time or post-contest.
If you are using Outlook Express, the log may be sent directly to the checker from the software. If you are using another browser, you have to send the log (Cabrillo) as an attached file to a mail sent to Alain, F6ENO.
The soft creates the files (Txt, Cabrillo, ASCII, Adif); the ADIF one may be imported without any modification, in any current modern logbook .
The data base (Dbase IV format) named : UFT_mini.dbf , gives the following items:
- UFT membership number
- Name and surname of the members.
- The current call-sign assigned to the member.
This file is updated each month.

Золотые слова!!!!
Когда я занимался рейтингом, перекапывая интернет и распечатывая не одну пачку бумаги, я ВСЕГДА предлагал ввести в положение о рейтинге пункт по подсчету результатов по ЗАЯВКАМ, т.е. для тех, кому это нужно (СПС, для "распальцованных", EXTRA (не путать с солью) и т.д. и т.п.).

> имхо. А не лшибается тот, кто ничего не делает...

Не хочу нарваться на комплимент, но у меня таких ошибок не было, да и безрезультатные станции я не учитывал, хотя "досье" были на всех "засветившихся" в результатах соревнований! А зачем кому то знать, что у него 72341 место в РЕЙТИНГЕ РАДИОСПОРТСМЕНОВ УКРАИНЫ ???
С помощью машинного судейства (TNX UT2UZ) появилась возможность видеть ВСЕХ. А зачем? Может есть смысл действительно ввести метод заявок или хотя бы усреднять? Отпикал, допустим, десяток тэстов - получай свой результат! Какой же ты радиоспортсмен, если отработал 2, 3 тэста???? Рейтинг то - РАДИОСПОРТСМЕНОВ Украины!!!!!!!

11974. The Tenth Running of The Stew

A good eating stew is a mixture of protein, fiber, spices and water. The Stew Perry TopBand DX Challenge is also made up of these same substances. It's the ratio of the mixings and how you ladle your RF nutrient out to the hungry competitors and how you consume their RF offerings as to how much fun you'll have Dec 17-18. So..I've completely confused and nauseated you comparing food and 160M TopBand contesting? Not a problem. Travel to the web site below and become one with the rules and the aura (not aurora) that the contest has.

http://www.jzap.com/k7rat/stew.html

One of several of the unique things about this contest is that the people who care decide what should
be honored by a plaque. The Boring Amateur Radio Club sponsors the Stew and offers anybody with a modicum of
good taste and $50 the ability to sponsor such a category. These plaque sponsors are typically more caring and
better looking than their counterparts... say....the 6M operators, who do utilize grid squares but don't have
anything comparable to The Stew Perry TopBand DX Challenge.
This years ever expanding list of plaque donors so far include:

Call Category
KL7RA Highest Number of QSO's
N5IA Most Grid Squares worked
K1PX Top Score, Low Power, Europe
K9DX Top Score Europe
N9ADG Top Score , Multi Op, World
N5ECT Longest QSO measuring DX
WD5R Top Score by contester age < 25 years old
W7TMT Top Score, Low Power, first time entry
KI7Y Sandy Lynch, W7BX/7J1ABV Memorial-Top Score Japan
K8ND Top Score, Single Op, Caribbean
N7KQ Top Score Central/South America
KB5NJD Top Score, Vertical < 40' tall
W0OU/5 Top Score US/VE QRP
W2GD Team Top Score Multi-Op Europe
KS0T Top Score from Grid EN
K7CA Top Score South of Equator
N7JW Top Score Top Score from country that has never had an entry
K7RAT Highest number of QRP Stations Worked
NA0Y Top Score USA
N6TR Furthermost DX completed within 30 min of local noon
VK6VZ Top Score, Antenna in space < 20mX10m- prize a Royal Flying Doctors Service of Australia Hat

There will be one more Stew epistle before the contest, so it's not too late to brew up your category
and let us know about it. The tension is mounting regarding the category for someone to win a never before
worn Official Boring Amateur Radio Club Tee Shirt. This, along with the complete list of the smart sponsors
will be coming soon. Bad behavior, boorish operating or general malfeasance on the Top Band, especially during
The Stew Perry Top Band DX Challenge may bring you an already worn, never washed Official Boring Amateur Radio
Club Tee Shirt...or worse. See you in The Stew! It's all about having some fun.
73 and I remain,
Lew W7EW/W7AT

Уважаемые коллеги!
Как известно, постановлением КМУ (?1208 от 15.12.2005 г.) утвержднена новая Нац?ональна таблиця
розпод?лу смуг рад?очастот Укра?ни.
Относительно 7,0-7,2:
7000 ? 7100 АМАТОРСЬКА,АМАТОРСЬКА СУПУТНИКОВА
(У018 У031 У093) ЗК (загального користуваня)

7100 ? 7200 АМАТОРСЬКА ,РАД?ОМОВНА
(У018 У031 У093) ЗК

Т.е. осталось "самое малое"- согласовать использование диапазона 7100-7200 с НКРЗ (сроки, мощность , классы излучения и.т.т), внести это в в проект Регламента и утвердить регламент (в т.ч. и в Минюсте).

Но всё равно , это достижение, с чем и поздравляем радиолюбителей Украины!

P.S.
К сожалению, не нашёл в Таблице инфо относительно 50 МГц. для радиолюбительской службы.Это печально

The ISS passes are comming (slowly) back in european evening times.
I want to say to you that astronaut Bill McArthur (NA1SS) is
very VOICE active and he is hunting for DXCC countries and Im sure he
like to work with Belarus! (I did not have heard he worked your countrie).
Also my ham friends in Malta, Thailand and China have worked Bill this
weekend in voice!
When you are intrested to make a QSO with an ham astronaut in space
look at My website: http://pd0rkc.ontwikkel.nl
Click on the ISS button and scroll down to: Talk with the crew (voice tips).
The most chance you have in the weekends but also look at crews -
eating time and after work (you can read the time details on my website).

12079. BASIC ANSWERS WRTC 2006 QUESTIONS

Yahoo group: URcontest (2005)

BASIC ANSWERS FOR RULES AND SELECTION CRITERIA QUESTIONS

20 December 2005

In order to clarify the rules and selection criteria developed by the WRTC 2006 Committee, we are circulating this report to all the friends who have an interest in WRTC 2006.

Philosophy of WRTC 2006

The WRTC 2006 Steering Committee approved the primary aspects of the philosophy of our WRTC 2006 in December 2004.

*To optimize the use of accumulated knowledge from the previous WRTCs.

*To encourage more global participation from all Continents in WRTC 2006.

*To distribute the chances of competitor selection world-wide.

*To use "published results" as the exclusive factor for selection

*To provide a totally open process for selection

*To establish weighting factors for applications by categories of scores.

*To divide populated areas into regions to increase representation and reduce geographical disadvantages

*To assure participation of the younger generation in the competition.

*To upgrade the WRTC stations in order to compensate for distance. Brazil is too far from the main ham populations - a beam will be used for 40 meters and equivalent amplifiers on all band.

*To address some of the concerns of the contest community about the WRTC competition, adapting the rules to those requests

*Creation of a new category Multi-National Multi-Single (M/N M/S)

*The use of the WRTC 2006 event as an instrument to promote ham radio activity in Brazil.

*To combine the event with cultural Brazilian shows.

*To promote tourism and entertainment for families of the participants and other hams not involved with the competition.

*To accommodate the visitors in a 5-Star hotel for a very convenient price.

*To take advantage of the out-of-season schedule.

Development of the organizing plan is intended to follow these guidelines. We know that much more could be included, but we also know the difficulties and our limitations. In order to follow those guidelines we had many meetings with the people directly involved with the previous WRTCs. We launched the initial rules in beginning of 2005, opening a window of time for the contest community to make suggestions to improve the plan. At the same time friends involved with the previous WRTCs offered their support to clarify the text. The decision to provide weighting factors for different categories, division of the highest ham populations into regions, and a totally open process created extra complexity in the rules.

So let's proceed to the major questions:

1) What principle defined the selected contests?

We decided to use the two major international contests CQWW and WPX. We added WAEDC recognizing the popularity and excellent administration by DARC. ARRL DX was included for the same reason (one from Europe another one from USA). In addition to those four contests we included IARU (the main competition under which the WRTC is conducted) and the Sweepstakes and NA Sprint in response to suggestions from USA contest community. We understand that some others could be included, but this is a first step.

We knew that the maximum number of rating points per contest of 500 (CQWW, WPX), 450 (IARU, SPRINT and SS), 400 (ARRL and WAEDC) would cause a lot of discussion, but the WRTC 2006 committee must select the factors we judge most adequate. At the same time we should develop a way to evaluate the effects of these factors for future competitions.

2) Why the limit of the eight highest scores from the 33+ possible contests?

Even for the most active contesters it is difficult to make a large number of competitive entries over a three-year period. It is not easy to combine, job, family and hobby responsibilities. The flexibility to choose eight scores from the 33+ minimizes the impact of other rules and selection criteria. i.e., points per contest, weighting factors, limitation on MO scores, region definitions, etc.

3) Why a totally open process?

A selection process doesn't need to be open to be HONEST. We are completely confident that the previous WRTCs developed different honest ways to select the best contesters in the world for the event. Being in all WRTCs and sharing thoughts with all participants we felt that the contest community would prefer to have an open process. We understand that an open

process also results in some unwanted consequences.

* More complex selection process.

* More questions to be answered.

* A higher level of criticism.

* Listing applicants with their scores might discourage some people from applying, resulting in a lower number of applicants.

* More work to be done by the committee.

4) Why limit the number of MO scores?

One of the main concerns about MO scores was that an operator could receive more points than would be merited by his or her contribution to the team score. Also we felt that no limit on MO scores would be a penalty for SO. We therefore limited the number of MO scores to 50% of the total scores. For applicants to the M/N M/S category we will not limit the number of MO scores.

5) How were weighting factors determined?

Our consensus was:

* SOAB demands the highest level of ability from the operator.

* The MO category is important to maintaining a high level of contest activity and should not be discounted too deeply.

* The weighting factor for MO should decrease according to the usual number of operators. So we decided on 0,8 MS, 0,75 M/2 and 0,6 MM.

* SOSB received a weighting factor of 0,8 due to reduced demand on the operator.

* LP scores received a further weighting factor of 0,9 and were included recognizing the high level of competition for the leaders in this category.

* The reduction factor cannot be completely fair to everyone but at least will be equal for every applicant.

* For Assisted we have 0,9 factor but all Assisted in the same basket independently if they are SOSB, SOAB, or LP

We perfectly understand that every one of us could have a different way to evaluate that but the WRTC 2006 has the responsibility to provide and define a clear and open process to be used equally for all applicants.

6) Why the stepped reduction of points based on finishing place?

It would be much simpler to simply prorate the final points against the first-place score. The problem is that DXpeditions or rare countries

produce disproportionately high scores. Compare scores in the following examples:

D4, CT3, CN, 3V to with ZS or any other resident African score

HC8, 9Y, PJ, P40 to LU or PY

KH2 or VK9 to VK or ZL

A6, 9K, or 5B to JA

So we came up with a process to gradually reduce the number of points according to the place of finish in order to remove these distortions.

7) Why the division of areas into WRTC 2006 Regions?

There are some high ham populations in large continents or countries with an enormous difference in propagation. The most common examples are USA, Europe and Asia. It is true that this difference in propagation is present on a worldwide basis, but it is impossible to adapt the rules for all situations. We recognize that this is also happening in S. America, Africa and Oceania, but the contest activity has a much lower density there. This is the general method of allocating representation used by the Olympic games, Soccer, Basketball, and other international sports.

8) Why the score comparison by region?

In order to recognize the importance of Dx-peditions and at the same time minimize the impact of them compared to scores from residents we decided to use the following philosophy:

* Rating points are calculated based on the top category score in the region from which the score was achieved. I.e. - a DXpedition to Zone 8 is compared against other Zone 8 scores, not scores from the expeditioner's home region.

* Rating points are summed for each applicant, regardless of the region from which rating points were acquired.

* The applicant specifies the region in which his or her total rating points are to be evaluated against other applicants.

In our judgment this system is not perfect but is reasonable.

9) Why upgrade the standard Team setup?

Brazil is quite far from the high-density contest populations. Aiming to minimize such a disadvantage we decided to add a 2-element mono-band antenna for 40 meters and to try to have an equivalent linear for every team. We must also to take into consideration that July 2006 is at the lowest point of the present solar cycle.

We know that this simple change will have some consequences:

* Additional equipment to be sponsored by the WRTC 2006

* Higher failure risk

* Higher and stronger towers needed to support the additional antenna

* Possible increase in interference between bands.

* Higher level of QRM

10) Why have more flexible interaction between operator A and B?

We would like to allow a totally flexible M/S operation for the teams. In our perception this should be the most adequate system for the future WRTCs. Unfortunately it is a too large a step in a short period of time. For example, it would require two towers to avoid too much interference between bands. Bearing in mind that this is going to be the way of the future, we decided to go one step further in permitting a higher degree of participation by the 2nd operator in the setup. Thus the 2nd operator can do everything except to key radio B. Radio B should be used only for reception or eventually to replace the radio A in case of failure. Since the referee will hear only the audio for radio A, we don't want station B to have a voice or CW keyer. This does not mean that the 2nd operator is not allowed to support the 1st operator by using the CW or voice keyer from station A. The table attached in the rules should be sufficiently clear to permit the competitors to develop a hardware and software strategy. The challenge for the competitors is not only operating but also to find the best way to extract the maximum return from the software and hardware used in the competition. That is the game!

11) WRTC 2006 Rules:

The rules for WRTC 2006 follow those for WRTC 2002, but there is a strong desire to have exactly the same rules as the IARU contest. It has been suggested that due to the fact that we are permitting the use of three different software packages (WriteLog, CT, and TR) the creation of Cabrillo format files is more reliable by using the IARU rules to avoid problems. We are studying this suggestion and in due time we will release a final version of the rules.

12) Why the Young Teams (YT)?

One of the major concerns of the Ham Radio community is how to maintain and increase the motivation of the young generation to participate in our hobby. This aspect is being discussed in all our meetings and is still a big challenge for all of us. The "competition" in all sports and hobbies is one of choosing the weapons to keep the attention of the young generation. As we all know ham radio is competing against the Internet, sports, other hobbies, unfortunately drugs, etc. The idea to offer a real chance to the youngster to compete in the WRTC 2006 came simultaneously from several friends, but I should say that our friend W6OAT (Rusty) made very strong arguments during our meeting in Dubai (A61AJ) to do everything possible to have some YT in the next WRTC 2006. So, we opened three

positions to be occupied by YT. They will apply for this specific category and their scores will be compared only to other applicants in this category but during the WRTC 2006 they will compete on equal terms with the "old guys".

13) Why the M/N M/S category?

A considerable number of visitors in the WRTC would like to have the chance to participate in the event as visitors, but simultaneously do something that they really love - Contesting. At the same time we would like to stimulate the Brazilians hams to develop and to upgrade their stations. The WRTC 2006 is a unique opportunity for us Brazilians to share and learn techniques from the best contesters in the world. The M/N M/S is a category specially created to increase the integration of contesters from different parts of the world, but that share the same spirit.

14) Why the Sponsored Teams?

The budget for WRTC events is quite high and difficult to cover within our own resources and possibilities. We created a Fundraising Committee and several ideas were proposed. Most of those ideas we are implementing with very good results. We do have some private companies helping and supporting the event, so why not search for hams that could eventually bring some sponsors, as well? So the idea is to have contesters looking for companies or persons who could be interested in sponsoring a team for the WRTC 2006. Immediately after the selection of the standard teams we will open an Internet auction for the Sponsored Team category.

Note: Our decision for a totally open process, orient us to study all suggestions and to answer all questions. Our commitment is to have nobody without a response.

So don't worry about contacting us in case of any doubts. It is our obligation to try to clear up all matters related with our WRTC 2006.

We perfectly understand that in the end, it is also our duty, to make the final decision, knowing that we are not able to please everyone.

Be sure we are doing our best, perhaps some times not sufficiently to attend all expectations.

The EU Sprint Gang is proud to announce the Winners of the
2005 Eu Sprint Plaques.

This is the fifth year that this award is issued and it goes
to the three operators with the highest combined scores, having
entered at least three of the four European Sprint contests in 2005.

2005 Winners are:
#1 - Tonno Vahk, ES5TV - 939 Points
#2 - Sasa Pokorni, 9A5Y (Opr. 9A3NM) - 772 Points
#2 - Iliya Getzov, LZ9W (Opr. LZ4UU) - 772 Points

Congratulations!

There are also certificates for the winners of each Sprint and the
leading score from each country. Prizes will be sent out by the
end of February 2005.

This is the fifth year since when we started the Eu Sprint Plaque
and we are proud to see that scores are increasing, it means that
winning the Plaque for the highest combined score is getting more
difficult every year.

This year the first place goes again to Tonno, ES5TV, who won 3 of
the 4 Sprint of the year, ending 4th in the last CW event. Operating
SO2R gave him a sure advantage. The second place is split between
two entrants: LZ9W and 9A5Y. Having the same score after 4 contests
is quite amazing, isn't it? Both LZ9W, operated by LZ4UU, and 9A5Y,
operated by 9A3NM, ended with 772 points. Both of them are quite
far from the winner.

The fourth place goes to DL6RAI that could have easily got a much
better score but, unfortunately, he was only able to operate part
time in the Spring CW event. Everyone else is quite far from the
top scores.

The top Low Power score belongs to Hrle, 9A6XX, who operated
as 9A7P, ending #5.

Rules, full results, past scores and all time records can be seen
at: <http://www.eusprint.com>. Please tell all your friends to
get ready for the European Sprint contests in 2006!

Happy New Year from the Eu Sprint Gang!

YASME Foundation Supports Young Contesters at WRTC-2006

Because radio contesting needs to attract and support youth, the YASME Foundation (http://www.yasme.org) announces a donation of $10,000 to WRTC-2006 (http://www.wrtc2006.com) in support of youth participation. These funds will be used to help Young Contesters from around the world attend and participate in WRTC-2006, to be held in Florianopolis, Brazil in July 2006. WRTC-2006 has dedicated three two-person team allocations to Young Contester teams. Additional Young Contesters may participate as part of multi-operator teams. We encourage young amateurs with a strong interest in contesting to make their applications for those positions by 20 Jan 2006. The qualifications and criteria for Young Contesters to apply to multi-operator teams will be announced shortly. While the multi-operator teams will operate at existing stations in Brazil, Young Contesters qualifying for the WRTC2006 competitor teams are expected to bring their own equipment.
